

Ex-Ante Costs & Charges Disclosure

ETF Investment Plans

The aim of the cost calculator is to explain to you the impact of various costs and charges on your investments made in eligible ETFs as part of ETF Investment Plans, by providing you with examples on an illustrative basis. It is being reviewed and updated on an annual basis, or when material changes occur. For more information, see explanations below the table.

	EUR	% (of initial investment)
TOTAL costs ⁽ⁱⁱⁱ⁾		
Investment services and/or ancillary services costs and charges (i.e. commission and custody fees charged by RSEUAB)		
Financial instrument costs charged by third parties		
Third party payments received by the firm		

To calculate total costs related to investments, press the "RESET" button and manually edit input fields with your case. Use Adobe Acrobat PDF reader for best experience.

(i) Gross Return - earnings before cost and charges
(ii) Net Return - earnings after cost and charges
(iii) Values are calculated for positive expected return

Revolut

Revolut Securities Europe UAB ("RSEUAB", "we", "our", "us") provides you with the ability to buy and sell ETFs on a non-advised (i.e. execution-only) basis via the Trading platform in the Revolut App. We offer the investment service of "executing on behalf of clients" as defined in MiFID II, whereby we receive orders from you and enter into transactions with Third Party Brokers on your behalf. Currently, the financial instruments offered by us are limited to non-complex financial instruments.

Generally, there are no financial instrument related costs and/or associated charges, therefore costs & charges¹ charged for RSEUAB investment services can be classified into on-going costs and transaction costs:

Cost type	Description	Specific costs
On-going costs	On-going costs and charges for the investment service(s) provided to the client.	<p><u>(1) Subscription plan charges:</u></p> <p>a) Depending on the subscription plan of the client, on-going charges related to the subscription may apply. Please find below an overview:</p> <ul style="list-style-type: none">i) Standard: free;ii) Plus: From €2.99/month;iii) Premium: From €7.99/month;iv) Metal: From €13.99/month.v) Ultra: From €45.00/month. <p>To see the costs of subscription plans for other currencies than EUR, please visit this webpage.</p> <p>The above mentioned subscription plans are products offered by Revolut Bank UAB. Each plan provides different benefits (including trading benefits) to the clients and may be subject to change by Revolut Bank UAB. These charges are paid monthly directly to Revolut Bank UAB.</p> <p>b) Trading Pro: The client might choose to purchase the Trading Pro Add-on on top of the referenced monthly subscription plan for 4.99 EUR.</p> <p>The Trading Pro Add-on is a subscription provided by Revolut Securities Europe UAB.</p> <p>We have included the Subscription plan and Trading Pro charges for illustrative purposes only, to enable you to assess costs against our other asset classes. Recurring buys set-up as part of ETF Investment Planes will not impact your allowance of commission-free trades.</p> <p><u>(2) Custody fee:</u></p> <p>a) RSEUAB doesn't charge a custody fee.</p>

¹ There are no entry (i.e. on-boarding), exit (i.e. off-boarding) or other one-off charges and no charges related to ancillary services or incidental costs charged by RSEUAB in relation to execution-only services.

		<p><u>(3) Total expense ratio (TER):</u></p> <p>a) The total expense ratio is measuring the total costs related to managing an exchange traded fund;</p> <p>b) The total costs include all management fees, trading fees and any additional fees the fund manager incurs whilst operating the ETF;</p> <p>c) The TER is presented as a percentage, calculated by dividing the total annual cost incurred by the fund's total assets averaged over the span of one year;</p> <p>d) The TER is deducted from the funds assets and is reflected in the price of the ETF;</p> <p>e) The TER varies depending on the ETF, therefore please refer to the relevant Key Information Document ("KID") displayed in the App in order to check the fund specific TER applied by the Fund Manager.</p>
Transaction costs	All costs and charges related to transactions performed by RSEUAB or Third Parties when providing the investment service to the client.	<p><u>(4) Commissions per transactions:</u></p> <p>Generally, RSEUAB charges a fee per transaction outside the monthly allowance across all plans, i.e., Standard, Plus, Premium, Metal and Ultra:</p> <p>a) The fee is 0.10% of the transaction size - for Standard, Plus, Premium.Metal, Ultra plans and Trading Pro Add-on customers;</p> <p>b) This fee will be charged in EUR (using the applicable FX rate at the time of the transaction).</p> <p>Under ETF Investment plans for recurring buys, irrespective of your subscription plan or whether you have the Trading Pro Add-on, you will not pay the commission directly, nor will the transactions impact your commission-free trades allowance. We will pre-fund the payable commission fee for you in order to facilitate commission-free execution.</p> <p>Future payments we receive from third parties will then be offset (netted-off) with the amount of Inducements that have already been returned to you (i.e. the pre-funded commission fee that you were not charged).</p> <p>Depending on your monthly allowance, a commission fee might be applied should you decide to sell your eligible ETF position.</p> <p><u>(5) FX fees:</u></p> <p>a) The currency in which the order is executed is determined by the currency in which the instrument is traded on the relevant trading venue (i.e. EUR for EU securities).</p> <p>b) In order to execute the order you may need to convert the currency in your primary Revolut account to the currency of the instrument you are trading, therefore a foreign exchange</p>

		<p>fee may apply. You can see our current exchange rate in the Revolut app. Once you have converted a currency, your transaction history in the Revolut app will show the exchange rate we have used. Please note that Revolut uses the rate that applies at the time the conversion is carried out.</p> <p>c) FX fees apply when transferring the trading sale proceeds to a non-EUR current account.</p> <p>When applicable, the fees collected will be charged on sell orders and will be withheld from your sales proceeds.</p>
	Third party payments received by the firm	<p>Any third-party payments (Inducements) we receive in relation to our ETF Investment Plans product will be returned to you in full to facilitate commission-free trade execution. To ensure that you benefit from these Inducements immediately, Revolut will pre-fund the payable commission fee, passing the financial benefit on to you upfront. Future payments received from third parties will then be offset with the amount of Inducements that have already been returned to you.</p>

Costs and Charges Illustration for EEA-listed ETFs offered as part of ETF Investment Plans

This document aims to provide you with certain scenarios in order to illustrate how the costs and associated charges will impact your investment returns. Although these examples are based on actual incurred costs (or reasonable estimations of such costs) as a proxy for expected costs and charges, actual costs and charges incurred in respect of any future transaction may be different.

For simplification and ease of understanding, the calculations are based on the following assumptions:

- Client is able to add the following parameters based on which personalized scenarios are presented: subscription plan, initial investment amount, holding period, recurring buy value, number of buy transactions per month, expected annual return, annual fund's total expense ratio (TER).
- Three scenarios based on expected annual income are presented:
 - First, where annual expected return (%) is 0%;
 - Second, where annual expected return is the one added by client;
 - Third, where the annual expected return is the one added by the client, just negative.
- All amounts, including subscription plans are in EUR.
- The assumption is made that the client invests one lump-sum amount in the beginning and makes recurring payments on a specified amount in euro at the beginning of every month starting from the second month. Client is able to specify the number of recurring payments to be made during the month to understand the impact of commissions after commission-free trade limits.
- The assumption is made that the client executes 1 sell transaction (in addition to the recurring transaction made that month) at the end of the holding period to show the impact on costs of closing the position.

Revolut

- For FX transactions above the FX exchange limits, a fee of 1% above the basic FX fee is charged for Standard plan customers and 0.5% for Plus plan customers.

Each Revolut customer has to choose a subscription plan - Revolut cannot be used without having a plan. Revolut offers 5 subscription plans, where each has a certain number of free transaction allowances. Table (1) summarises the monthly subscription fees, free transactions and FX exchange allowance.

Table 1 - Overview of the Revolut Bank UAB subscription plans and monthly free transaction allowance and FX change limits

Revolut plan	Monthly cost	Monthly free trading transaction allowance	FX exchange limit	FX fee
Standard	€0.00	1	€1,000.00	1%
Plus	From €2.99	3	€1,000.00	0.5%
Premium	From €7.99	5	Unlimited	N/A
Metal	From €13.99	10	Unlimited	N/A
Ultra	From €45.00	10	Unlimited	N/A
