Revolut

Revolut Securities Europe UAB ("RSEUAB", "we", "our", "us") provides the client ("you") with the ability to buy and sell EEA Units in Collective Investment Undertakings (such as ETFs) on a non-advised (i.e. execution-only) basis via the Trading platform in the Revolut App and Web Terminal. We offer the investment service of "execution of orders on behalf of clients" as defined in MiFID II, whereby we receive orders from you and enter into transactions with Third Party Brokers on your behalf. Currently, the financial instruments offered by us are limited to non-complex financial instruments

Generally, there are no financial instrument related costs and/or associated charges, therefore costs & charges¹ charged for RSEUAB investment services can be classified into on-going costs and transaction costs:

Cost type	Description	Specific costs
Ongoing costs	Ongoing costs and charges for the investment service(s) provided to the client.	<u>(1) Subscription plan charges:</u> (a) Depending on the subscription plan of the client, different on-going charges related to the subscription may apply. Please find below an overview: i) Basic: From €10 per month ii) Grow: From €35 per month or from €360 per year iii) Scale: From €125 per month or from €1080 per year iv) Enterprise: Custom (based on selected benefits) To see the costs of subscription plans for other currencies than EUR, please visit this webpage. Please note that the above mentioned subscription plans are offered by Revolut Bank UAB. Each plan provides different benefits to the clients and may be subject to change by Revolut Bank UAB. These charges are paid monthly or annually by the Client directly to Revolut Bank UAB. <u>(2) Custody fee:</u> (a) RSEUAB doesn't charge a custody fee. <u>(3) Total expense ratio (TER)</u> (a) The total expense ratio is measuring the total costs related to managing an exchange traded fund; (b) The total costs include all management fees, trading fees and any additional fees the fund manager incurs whilst operating the ETF; (c) The TER is presented as a percentage, calculated by dividing the total annual cost incurred by the fund's total assets averaged over the span of one year; (d) The TER is deducted from the funds assets and is reflected in the price of the ETF; (e) The TER varies depending on the ETF, therefore please refer to the relevant Key Information Document ("KID") displayed in the App in order to check the fund specific TER applied by the Fund Manager.
Transaction	All costs and	<u>(4) Commissions per transactions:</u>

¹ There are no entry (i.e. on-boarding), exit (i.e. off-boarding) or other one-off charges and no charges related to ancillary services or incidental costs charged by RSEUAB in relation to execution-only services

Revolut

costs	charges related to transactions performed by RSEUAB or Third Parties when providing the investment service to the client.	RSEUAB charges a fee per transaction across all plans, i.e. Basic, Grow, Scale and Enterprise (a) The fee is 0.05% of the transaction size (5bps) - for Basic, Grow, Scale and Enterprise plan Business customers; (b) This fee will be charged in EUR (using the applicable FX rate at the time of the transaction). <u>(5) FX fees:</u> (a) The currency in which the order is executed is determined by the currency in which the instrument is traded on the relevant trading venue (i.e. EUR for EU securities). (b) In order to execute the order you may need to convert the currency in your primary Revolut account to the currency of the instrument you are trading, therefore a foreign exchange fee may apply. You can see our current exchange rate in the Revolut app. Once you have converted a currency, your transaction history in the Revolut app will show the exchange rate we have used. Please note that Revolut uses the rate that applies at the time the conversion is carried out. (c) FX fees apply when transferring the trading sale proceeds to a non-EUR current account. When applicable, the fees collected will be charged on sell orders and will be withheld from your sales proceeds. (d) Please note that foreign exchange services are offered by Revolut Bank UAB. Any fees charged for exceeding the FX limits of your subscription plan and/or for out of market hours exchanges are paid directly by the client to Revolut Bank UAB when executing each transaction. The applicable FX rate and fees are disclosed to the client in the app prior to executing the transaction.
Third party payments received by the firm		RSEUAB does not accept and retain any fees, commissions or any monetary or non-monetary benefits from any third parties in relation to the investment services provided to its clients ("Inducements"), except in cases where such Inducements are returned directly to clients, as in relation to our ETFs Investment Plans service. If we receive inducements from any third party in relation to our execution-only services, we will either return them to such a third party or transfer all such payments and/or benefits to our clients. If, however, we deem that such payments or benefits are designed to enhance the quality of our services and they do not affect our duty to act honestly, fairly, professionally in accordance with your best interests, we may decide to retain such payments and benefits. For further information in regards to our arrangements in place for third party payments, please refer to our Conflict of Interest Policy here.

Costs and Charges Illustration for ETFs listed in the EEA

This document aims to provide you with certain scenarios in order to illustrate how the costs and associated charges will impact your investment returns. Although these examples are based on actual incurred costs (or reasonable estimations of such costs) as a proxy for expected costs and charges, actual costs and charges incurred in respect of any future transaction may be different.

For simplification and ease of understanding, the calculations are based on the following assumptions:

- Client is able to add the following parameters based on which personalized scenarios are presented: subscription plan, initial investment amount, holding period, recurring investment, number of buy transactions per month, expected annual return, annual fund's total expense ratio (TER).
- Three scenarios based on expected annual return are presented:
 - First, where annual expected return is the one added by the client;
 - Second, where annual expected return (%) is 0%;
 - Third, where the annual expected return is the one added by the client, just negative.
- All amounts, including subscription plans are in EUR.
- The assumption is made that the client invests one lump-sum amount in the beginning and makes recurring payments on a specified amount in euro at the beginning of every month starting from the second month. Client is able to specify the number of recurring payments to be made during the month to understand the impact of commissions.
- The assumption is made that the client executes 1 sell transaction (in addition to the recurring transaction made that month) at the end of the holding period to show the impact on costs of closing the position.
- For FX transactions above the FX limits, a fee of 0.6% on the exchanged amount is charged for all plans. The assumption is made that all FX transactions are issued within market hours, where the 1% fee for exchanges outside market hours is not applicable.

Each client has to choose a subscription plan - Revolut Business cannot be used without having a plan. Revolut Business is available on 4 subscription plans (Basic, Grow, Scale and Enterprise), where each has different subscription fees and FX limits.

Table (1) summarises the monthly subscription fees and FX limits and fees.
