Revolut

Ex-Ante Costs & Charges Disclosure

EEA and Swiss listed ETFs

The aim of the cost calculator is to explain to you the impact of various costs and charges on your investments by providing examples on an illustrative basis. It is being reviewed and updated on an annual basis, or when material changes occur. For more information, see explanations below the table.

Third party payments received by the firm	€ 0.00	0.00%

(1) Gross Return - earnings before cost and charges
(2) Net Return - earnings after cost and charges
(3) Values are calculated for positive expected return

Revolut Securities Europe UAB ("**RSEUAB**", "**we**", "**our**", "**us**") provides you with the ability to buy and sell Units in Collective Investment Undertakings (such as ETFs) on a non-advised (i.e. execution-only) basis via the Trading platform in the Revolut App. We offer the investment service of "executing on behalf of clients" as defined in MiFID II, whereby we receive orders from you and enter into transactions with Third Party Brokers on your behalf. Currently, the financial instruments offered by us are limited to non-complex financial instruments.

Generally, there are no financial instrument related costs and/or associated charges, therefore costs & charges[1] charged for RSEUAB investment services can be classified into on-going costs and transaction costs:

Cost type	Description	Specific costs
On-going costs	On-going costs and charges for the investment service(s) provided to the client.	<u>(1) Subscription plan charges:</u> a) Depending on the subscription plan of the client, on-going charges related to the subscription may apply. Please find below an overview: i) Standard: free; ii) Plus: From €3.99/month; iii) Premium: From €9.99/month; iv) Metal: From €17.99/month. v) Ultra: From €50.00/month. Please see the Revolut App or the Fees page of the Revolut account offering entity for specific subscription fee applicable in your jurisdiction, including fees charged in currencies other than EUR. Please note that the above mentioned subscription plans are products offered by the Revolut account offering entity. Each plan provides different benefits (including trading benefits) to the clients and may be subject to change. These charges are paid monthly directly to the Revolut account offering entity. b) **Trading Pro:** The client might choose to purchase the Trading Pro Add-on on top of the referenced monthly subscription plan for 15 EUR. In return, irrespectively what subscription plan the client possesses, he/she will be entitled to 10 commission-free trades and subject to a reduced

[1] There are no entry (i.e. on-boarding), exit (i.e. off-boarding) or other one-off charges and no charges related to ancillary services or incidental costs charged by RSEUAB in relation to execution-only services.

Revolut

		commission per transaction of 0.12% thereafter, as explained further. Please note that the Trading Pro Add-on is a subscription provided by Revolut Securities Europe UAB. <u>(2) Custody fee:</u> RSEUAB doesn't charge a custody fee. <u>(3) Total expense ratio (TER):</u> a) The total expense ratio is measuring the total costs related to managing an exchange traded fund; b) The total costs include all management fees, trading fees and any additional fees the fund manager incurs whilst operating the ETF; c) The TER is presented as a percentage, calculated by dividing the total annual cost incurred by the fund's total assets averaged over the span of one year; d) The TER is deducted from the funds assets and is reflected in the price of the ETF; e) The TER varies depending on the ETF, therefore please refer to the relevant Key Information Document ("KID") displayed in the App in order to check the fund specific TER applied by the Fund Manager.
Transaction costs	All costs and charges related to transactions performed by RSEUAB or Third Parties when providing the investment service to the client.	<u>(4) Commissions per transactions:</u> RSEUAB charges a fee per transaction outside the monthly allowance across all plans, i.e., Standard, Plus, Premium, Metal and Ultra: a) The fee is 0.25% of the transaction size or EUR 1.00[2] - whichever is higher for Standard, Plus, Premium and Metal plans; b) The fee is 0.12% of the transaction size or EUR 1.00[2] - whichever is higher for Ultra plan and Trading Pro Add-on subscribers; c) This fee will be charged in EUR (using the applicable FX rate at the time of the transaction). <u>(5) FX fees:</u> a) The currency in which the order is executed is determined by the currency in which the instrument is traded on the relevant trading venue (i.e. EUR for EU securities).

[2] The minimum country-specific fee applies (see here). The minimum country specific fee is waived for recurring buys in ETFs, i.e. for recurring buys outside of the monthly allowance in ETFs that are not part of ETF Investment Plans the execution commission will always be 0.12% or 0.25% of the transaction size depending on your subscription plan.

Revolut

		b) In order to execute the order you may need to convert the currency in your selected Revolut account to the currency of the instrument you are trading, therefore a foreign exchange fee may apply. You can see our current exchange rate in the Revolut app. Once you have converted a currency, your transaction history in the Revolut app will show the exchange rate we have used. Please note that Revolut uses the rate that applies at the time the conversion is carried out. c) Subject to your plan's restrictions and limitations, FX fees will apply when transferring funds into or out of your investment account where a currency conversion is required. These FX fees are charged by your Revolut account offering entity. RSEUAB does not charge any FX fee for currency conversions it carries out within your investment account. Any applicable fees will always be shown to you prior to execution. (6) FX Spread charge: When engaging in FX transactions a spread is applied. This spread varies depending on the size of the transaction, market availability, volatility and exchange timing. Typically the spread will vary between 0.1bps and 50bps. The exact applicable FX rate will be shown to you prior to execution. When applicable, the fees collected will be charged on sell orders and will be withheld from your sales proceeds.
Third party payments received by the firm		RSEUAB does not accept and retain any fees, commissions or any monetary or non-monetary benefits from any third parties in relation to the investment services provided to its clients ("**Inducements**"), except in cases where such Inducements are returned directly to clients or used to enhance the quality of the services to the relevant clients, as in relation to our ETFs Investment Plans service. You can find more information in the ETF Investment Plans ex-ante cost and charges disclosure and our Conflict of Interest Policy here.

Costs and Charges Illustration for EEA and Swiss listed ETFs

This document aims to provide you with certain scenarios in order to illustrate how the costs and associated charges will impact your investment returns. Although these examples are based on actual incurred costs (or reasonable estimations of such costs) as a proxy for expected costs and charges, actual costs and charges incurred in respect of any future transaction may be different.

For simplification and ease of understanding, the calculations are based on the following assumptions:

- Client is able to add the following parameters based on which personalized scenarios are presented: subscription plan, initial investment amount, holding period, recurring investment,

number of buy transactions per month, expected annual return, annual fund's total expense ratio (TER).

- Three scenarios based on expected annual income are presented:
    - First, where annual expected return (%) is 0%;
    - Second, where annual expected return is the one added by client;
    - Third, where the annual expected return is the one added by the client, just negative.
- All amounts, including subscription plans are in EUR.
- The assumption is made that the client invests one lump-sum amount in the beginning and makes recurring payments on a specified amount in euro at the beginning of every month starting from the second month. Client is able to specify the number of recurring payments to be made during the month to understand the impact of commissions after commission-free trade limits.
- The assumption is made that the client executes 1 sell transaction (in addition to the recurring transaction made that month) at the end of the holding period to show the impact on costs of closing the position.
- For FX transactions above the FX exchange limits, a fee of 1% above the basic FX fee is charged for Standard plan customers and 0.5% for Plus plan customers.

Each Revolut customer has to choose a subscription plan - Revolut cannot be used without having a plan. Revolut offers 5 subscription plans, where each has a certain number of free transaction allowances. Table (1) summarises the monthly subscription fees, free transactions and FX exchange allowance.

Table 1 - Overview of the Revolut account offering entity subscription plans and monthly free transaction allowance and FX change limits

Revolut plan	Monthly cost	Monthly free trading transaction allowance	FX exchange limit	FX fee
Standard	€0.00	1	€1,000.00	1%
Plus	From €3.99	3	€3,000.00	0.5%
Premium	From €9.99	5	Unlimited	N/A
Metal	From €17.99	10	Unlimited	N/A
Ultra	From €50.00	10	Unlimited	N/A

*The FX fee above applies both as a fair usage fee (when exceeding the monthly exchange limit) and as a weekend fee (Friday 5pm to Sunday 6pm New York time). If both conditions are met, both fees are charged cumulatively.
