

CRYPTO FOR YOUR BUSINESS

Get crypto-confident — invest anytime, anywhere, at your fingertips

Why invest in crypto with Revolut Business?

170+ carefully-vetted tokens

We regularly release new tokens — keep an eye out for the latest and greatest ones making their way to Revolut Business. All tokens must pass our stringent checks before we list them.

Seamless trading, available 24/7

Move quickly between 25+ fiat currencies and crypto and back again in a few clicks or taps. Keep up with market movements with price alerts, and use stop and limit orders to side-step price fluctuations. With Crypto, you can easily get an edge on the market when it suits you.

Competitive pricing

We benchmark our pricing against industry averages to make sure our fees are competitive, no matter how much crypto you need to trade.

Plan	Crypto fee
Basic	1.49%
Grow	0.99%
Scale	0.49%
Custom	0.49%

What are we working on?

Tiered pricing for Business accounts

Recently launched for personal Revolut accounts, we'll soon be releasing our tiered pricing structure — lower fees at higher volumes — for Business customers.

Send and receive

Move your tokens wherever you want. Send and receive your Crypto tokens via multi-chain to an external wallet directly to your Revolut Business account.

Pay in Crypto

Building on near-instant Revolut to Revolut fiat transactions, we make it simple to send and pay crypto to other Revolut and Revolut Business accounts.

Access to Revolut X

Integration with our latest standalone Crypto product, [Revolut X](#) — Revolut's own proprietary cryptocurrency exchange. With 0% maker and 0.09% taker fees, Revolut X is built with Crypto pros in mind, with advanced trading features and analytics.
