International transfers (outbound)	0 per month	S\$8 per additional transfer above the allowance

Exchanging money currencies

Your plan comes with the following free FX allowance. You will pay the stated fees if you exceed this allowance or if you exchange outside of foreign exchange market hours.

Foreign exchange	Allowance	FX Fair Usage Fee	Additional fees
Exchanging money currencies	S\$1500 per month	0.6% fee where you exceed the allowance	1% if you're exchanging money outside of foreign exchange market hours

Whenever you make a money currency exchange using Revolut Business, we use our simple and transparent pricing formula of real rate + any fees (see the above table) = total cost.

We use the real exchange rate for money currency exchanges (sometimes called the "interbank" rate). Here at Revolut, the real exchange rate means the average buy and sell rates we have determined for each currency pair based on the foreign exchange market data feeds we consume from a range of different independent sources. This is a variable exchange rate.

The additional fees we may charge depend on the parameters of your exchange (like the time when you're exchanging currencies). You can see what these fees are in the app. They are also set out in the table above.

Billing Cycle

You will be billed for your plan fee monthly or yearly, depending on the choice you made when you signed up to your plan. All other fees will be billed monthly.

Your billing cycle is monthly, beginning on the monthly anniversary of the day you signed up to your plan. Your allowances will reset each billing cycle.

If you decide to change plan mid-billing cycle, your subscription will start again and your allowances will be reset according to your new plan immediately. We won't refund any of the monthly subscription you paid.
