## Revolut Business apps and features

Access to business features and apps is subject to plan availability.

Some fees are only incurred for "active" team members. A team member becomes "**active**" when they start using a product feature or app (as set out in the table below) and remains active until their permission to use the feature or app is removed. You

will be charged for any team members who have been active in the preceding billing period.

The fees listed in the table below will apply unless we agree on a different arrangement with you.

Type of Business app	Fees
<b>Expenses app</b>	8€ per active team member. A team member becomes active after they've submitted their first expense.
<b>Payroll app</b>	3€ per active team member. A team member becomes active after the Account Owner confirms that team member's first pay run per billing cycle.

Type of Business feature	Fees
<b>Revolut ePOS</b>	None
<b>FX Forwards</b>	<p><u>Fee charged per FX Forward contract</u> 0.8% for USD, GBP, EUR paired with each other in any combination. 1.5% for USD, GBP, EUR paired with another currency (not USD, GBP, EUR). The fee charged is negotiable and can be lowered for certain clients depending on internal credit checks, and based on the size of the contract.</p> <p><u>Fee charged on contract cancellation</u> 0.8% for USD, GBP, EUR paired with each other in any combination. 1.5% for USD, GBP, EUR paired with another currency (not USD, GBP, EUR). Since the value of the FX Forward contracts are driven by market value, we may charge the mark to market difference (which could be positive or negative) due to any potential loss we may have incurred because of your decision to close the contract early.</p>

## Exchanging money currencies

Your plan comes with the following free FX allowance. You will pay the stated fees if you exceed this allowance or if you exchange outside of foreign exchange market hours unless we agree on a different arrangement with you.

Foreign exchange	Allowance	Flat fee where allowance exceeded	Additional fees
Exchanging money currencies	Custom	Custom	1% if you're <b>exchanging money outside of foreign exchange market hours</b>

Whenever you make a money currency exchange using Revolut Business, we use our simple and transparent pricing formula of real rate + any fees (see the above table) = total cost.

We use the interbank rate for money currency exchanges. Here at Revolut, the real exchange rate means the average buy and sell rates we have determined for each currency pair based on the foreign exchange market data feeds we consume from a range of different independent sources. This is a variable exchange rate.

The additional fees we may charge depend on the parameters of your exchange (like the time when you're exchanging currencies). You can see what these fees are in the app. They are also set out in the table above.

### **\*Additional note about Cryptocurrency fees**

This page shows the fees for the services provided to you by us, the French Branch of Revolut Bank UAB. The Cryptocurrency products are offered by Revolut Digital Assets Europe Limited ("RDAEL"). You can see these fees [here](#) (scroll down to the bottom of the page).

*Note: If a fee is stated in a currency other than the base currency of your account, it will be charged in your base currency. This conversion is made and fixed using a reasonable exchange rate at the time each individual fee is set. This prevents fees fluctuating.*
