

This page consists of two Parts:

- Part I: Revolut Bank UAB Hungarian Branch Business Fees (Enterprise)
- Part II: Revolut Bank UAB Business Fees (Enterprise)

Revolut Bank UAB is currently in the process of operationalising its Hungarian branch, called **Revolut Bank UAB Hungarian Branch**. The migration of the Hungarian Business customer portfolio is part of this process, from Revolut Bank UAB (Lithuanian entity) to the local branch, Revolut Bank UAB Hungarian Branch.

The terms and conditions in Part I will apply from the moment of the migration of the existing Hungarian customers of Revolut Bank UAB (Lithuanian entity) to the local branch, Revolut Bank UAB Hungarian Branch. It will also apply to new customers onboarded directly to Revolut Bank UAB Hungarian Branch.

Until the completion of this migration, the current terms of Revolut Bank UAB (Lithuanian entity), which shall be amended in the form set out in Part II of this document with the effective date of **31st August 2026**, will continue to apply:

- to Hungarian customers whose contractual relationship which is subject to these terms predates 29th June 2026,
- as well as to those who will open a contractual relationship subject to these terms after 29th June 2026 with Revolut Bank UAB, and until the migration is completed.

Once the migration is completed, Part I will apply to said Hungarian customers as well (i.e. Part I will replace Part II from the moment of the migration).

This version, containing Parts I and II, was published on 29th June 2026.

Revolut Business features and apps

Access to business features and apps is subject to plan availability.

Some fees are only incurred for “**active**” team members. A team member becomes “active” when they start using a product feature or app (as set out in the table below) and remains active until their permission to use the feature or app is removed. You will be charged for any team members who have been active in the preceding billing period.

The fees listed in the table below will apply unless we agree on a different arrangement with you.

Type of Business app	Fees
Expenses app	<u>2400 Ft</u> per active team member A team member becomes active after they've submitted their first expense.
Payroll app	900 Ft per active team member A team member becomes active after the Account Owner confirms that team member's first pay run per billing cycle.

Type of Business feature	Fees
FX Forwards	<u>Fee charged per FX Forward contract</u> 0.8% for USD, GBP, EUR paired with each other in any combination. 1.5% for USD, GBP, EUR paired with another currency (not USD, GBP, EUR). The fee charged is negotiable and can be lowered for certain clients depending on internal credit checks, and based on the size of the contract.

Type of Business feature	Fees
	<u>Fee charged on contract cancellation</u> 0.8% for USD, GBP, EUR paired with each other in any combination. 1.5% for USD, GBP, EUR paired with another currency (not USD, GBP, EUR). Since the value of the FX Forward contracts are driven by market value, we may charge the mark to market difference (which could be positive or negative) due to any potential loss we may have incurred because of your decision to close the contract early.

Exchanging money currencies

Your plan comes with the following free FX allowance. You will pay the stated fees if you exceed this allowance or if you exchange outside of foreign exchange market hours unless we agree on a different arrangement with you.

Foreign exchange	Allowance	Flat fee where allowance exceeded	Additional fees
Exchanging money currencies	Custom	Custom In addition to the above fees, from the completion of the migration of the existing Hungarian customers of Revolut Bank UAB to Revolut Bank UAB Hungarian Branch, a special transaction fee of 0.45% but no more than 20,000 Ft per transaction also applies.	1% if you're exchanging money outside of foreign exchange market hours

You will receive a 100% preliminary discount on the special transaction fee for any exchange you make, regardless of the number of exchanges you make. This 100% preliminary discount is valid until 31 December 2027 and will be automatically extended until further notice, unless we give you at least 2 months' prior notice to the contrary. If the discount is extended, we will also give you at least 2 months' prior notice before it expires.

Whenever you make a money currency exchange using Revolut Business, we use our simple and transparent pricing formula of real rate + any fees (see the above table) = total cost.

We use the real exchange rate for money currency exchanges (sometimes called the “interbank” rate). Here at Revolut, the real exchange rate means the average buy and sell rates we have determined for each currency pair based on the foreign exchange market data feeds we consume from a range of different independent sources. This is a variable exchange rate.

The additional fees we may charge depend on the parameters of your exchange (like the time when you’re exchanging currencies). You can see what these fees are in the app. They are also set out in the table above.
