## Revolut Business features and apps

Access to business features and apps is subject to plan availability.

Some fees are only incurred for **"active"** team members. A team member becomes "active" when they start using a product feature or app (as set out in the table below) and remains active until their permission to use the feature or app is removed. You will be charged for any team members who have been active in the preceding billing period.

Type of Business app	Fees
<b>Expenses app</b>	<p>€5 per active team member</p> <p>A team member becomes active after they've submitted their first expense.</p>
<b>Payroll app</b>	<p>€3 per active team member</p> <p>A team member becomes active after the Account Owner confirms that team member's first pay run per billing cycle.</p>

Type of Business feature	Fees
<b>FX Forwards</b>	<p><u>Fee charged per FX Forward contract</u> 0.8% of contract value</p> <p>The fee charged is negotiable and can be lowered for certain clients depending on internal credit checks, and based on the size of the contract.</p>

Type of Business feature	Fees
	<u>Fee charged on contract cancellation</u> 0.8% of contract value Since the value of the FX Forward contracts are driven by market value, we may charge the mark to market difference (which could be positive or negative) due to any potential loss we may have incurred because of your decision to close the contract early.

## Exchanging money currencies

Your plan comes with the following free FX allowance. You will pay the stated fees if you exceed this allowance or if you exchange outside of foreign exchange market hours.

Foreign exchange	Allowance	Flat fee where allowance exceeded	Additional fees
Exchanging money currencies	Custom		1% if you're <b>exchanging money outside of foreign exchange market hours</b>

Whenever you make a money currency exchange using Revolut Business, we use our simple and transparent pricing formula of real rate + any fees (see the above table) = total cost.

We use the real exchange rate for money currency exchanges (sometimes called the "interbank" rate). Here at Revolut, the real exchange rate means the average buy and sell rates we have determined for each currency pair based on the foreign exchange market data feeds we consume from a range of different independent sources. This is a variable exchange rate. The additional fees we may charge depend on the parameters of your exchange (like the time when you're exchanging currencies). You can see what these fees are in the app. They are also set out in the table above.

## Merchant Chargebacks

The amount of the chargeback fee depends on the currency of the original transaction, as set out below:

- **AUD:** 30
- **CAD:** 25
- **CHF:** 20
- **DKK:** 130
- **EUR:** 15
- **GBP:** 15
- **HKD:** 150

- **JPY:** 2000
- **NOK:** 200
- **NZD:** 30
- **PLN:** 80
- **SEK:** 200
- **USD:** 20
- **ZAR:** 350

There is more information about disputes and chargebacks in our [Payment Processing Services Agreement](#).

## Billing Cycle

You will be billed in advance of the month or year, depending on the plan you sign up to purchase. Your allowances will reset on the first day of the billing month. If you choose to move your plan in mid-billing cycle, your subscription will start again and your allowances will be reset according to your new plan immediately.

Fees for team members' use of Revolut Business product features and apps will be charged at the start of the month for "active" team members' use of those product features.
