2. What type of account is my Business Instant Access Savings?

Your Business Instant Access Savings with us is a demand deposit account, and the money in it is held by us as a deposit. In these terms and conditions we may refer to it as "Business Instant Access Savings" or "account".

When you put money as a deposit into your Business Instant Access Savings, we accept the money, hold it for you, and undertake to return it to you upon your request. The only way you can put money into, or take money out from your Business Instant Access Savings is by having a Grow, Scale or Enterprise business plan with us. More information on our business plans can be found here [Business fees | Revolut Ireland](#)

Keep in mind that your Business Instant Access Savings is not a payment account and cannot be used for sending or receiving payments, and you can only place your deposit in the way described in these Business Instant Access Savings Terms.

You can open multiple Business Instant Access Savings with Revolut. Each of these Business Instant Access Savings can be terminated at any time by you. Opening a new Business Instant Access Savings won't automatically close the existing Business Instant Access Savings. In case you terminate all of your Business Instant Access Savings with Revolut, it will also lead to termination of your Business Instant Access Savings relationship with Revolut. However, closing all your Business Instant Access Savings does not mean that other accounts you have with Revolut (for example, your Business current account) will also be terminated, unless we inform you otherwise.

3. Can I open a Business Instant Access Savings?

You can open a Business Instant Access Savings only if you are a business customer of the Ireland branch of Revolut Bank UAB and fulfil the other conditions under these Business Instant Access Savings Terms.

Business Instant Access Savings are only available to incorporated entities with a Revolut Grow, Scale or Enterprise business plan.

If your Business plan is downgraded from **Grow**, **Scale** or **Enterprise** to the Basic business plan you will no longer have access to Business Instant Access Savings. Funds in your Business Instant Access Savings must be withdrawn from the Business Instant Access Savings into your Business current account before downgrade occurs.

The business customer Account Owner, or any one of the Account Owners if there is more than one, can sign up for Business Instant Access Savings. Authorised Users with the required permission can manage Business Instant Access Savings.

When you ask us to open a Business Instant Access Savings, we or our representatives may ask for information about you, your business and where the money you will deposit into your Business Instant Access Savings comes from. We do this for a number of reasons, including to check your identity and/or your business, and to meet our legal and regulatory requirements. Make sure you have provided us with all the information we have requested from you (including your Tax Reference Number). When we have the information we need, we will open your Business Instant Access Savings, and you can make a deposit into it. If you have already provided this information to one of our group entities when opening a Business current account, you acknowledge and agree that we may use and rely on that information for this purpose.

We can only provide services to you once you have passed our internal checks, and not before. We will notify you via the Revolut Business App once this has happened and will let you know once your Business Instant Access Savings is opened.

We may offer Business Instant Access Savings in certain EEA countries, and not others. We may not be able to open a Business Instant Access Savings to you if you reside in a country where the Business Instant Access Savings is not offered.

If any of your details change, you must notify us immediately.

When we refer to "email" we mean the email you provided to us during the Revolut Business onboarding process (unless you updated your email afterwards). It's

important that you provide your primary email address and check it regularly. Should your email address change or should you have any trouble receiving or opening emails from us, you must notify us immediately. Otherwise, you agree that if an email has been delivered to your email address, you should have read it, even if you failed to do so for whatever reason.

5. Will you pay any interest on the Deposit held in my Business Instant Access Savings?

We will pay interest daily on the balance of your Business Instant Access Savings at the end of each day. Interest will be calculated at a yearly rate indicated in the Deposit Information Sheet document available on the Revolut Business App. The yearly rate may differ depending on the business plan (i.e. Grow, Scale or Enterprise) you have with us.

The interest will be calculated based on the number of actual days in a year, and the actual number of days in a month. The interest will begin accruing immediately after you deposit funds from your Business current account to your Business Instant Access Savings, and the first interest payment will be done on the next calendar day after you deposit funds from your Business current account to your Business Instant Access Savings.

The interest will be calculated using the following formula:

Gross Interest = Closing balance in your Business Instant Access Savings * Gross Interest Rate(p.a.) / Number of days in a year *100

We can pay positive interest to incorporated bodies without deducting Deposit Interest Retention Tax ('DIRT') if you have provided us with the required information, your tax reference number.

While interest accrues daily, the minimum threshold for interest to be paid to your Business Instant Access Savings is € 0.01; this means that interest may not be paid to your Business Instant Access Savings every day (until net interest becomes min € 0.01), the accrued interest will be paid to your Business Instant Access Savings at the point that it reaches a minimum of €0.01.
