### Revolut Business features and apps

Access to business features and apps is subject to plan availability.

Some fees are only incurred for “active” team members. A team member is “active” when they start using a product feature or app (as set out in the table below) and remains active until their permission to use the feature or app is removed. You will be charged for any team members who have been active in the preceding billing period.

<b>Type of Business app</b>	<b>Fees</b>
Revolut ePOS	None
Expenses app	€5 per active team member (a team member becomes active after they've submitted their first expense)
Payroll app	€3 per active team member (a team member becomes active after the Account Owner confirms that team member's first pay run per billing cycle)

### Exchanging money currencies

Your plan comes with the following free FX allowance. You will pay the stated fees if you exceed this allowance or if you exchange outside of foreign exchange market hours.

<b>Type of exchange</b>	<b>Allowance</b>	<b>Flat fee where allowance exceeded</b>	<b>Additional fees</b>
Exchanging money currencies	€10k per month	0.6% fee where you exceed your allowance	1% if you're <b>exchanging money outside of foreign exchange market hours</b>

Whenever you make a money currency exchange using Revolut Business, we use our simple and transparent pricing formula of real rate + any fees (see table above) = total cost.

We use the real exchange rate for money currency exchanges (sometimes called the “interbank” rate). Here at Revolut, the real exchange rate means the average buy and sell rates we have determined for each currency pair based on the foreign exchange market data feeds we consume from a range of different independent sources. This is a variable exchange rate.

The additional fees we may charge depend on the parameters of your exchange (like the time when you're exchanging currencies). You can see what these fees are in the app. They are also set out in the table above.

### **Merchant Chargebacks**

The amount of the chargeback fee depends on the currency of the original transaction, as set out below:
