Exchange

Whenever you make an exchange (including cryptocurrency or bullion exchanges) in the Revolut app, we'll use an exchange rate based on our market data, which is based on official exchange market rates. There is more information about our currency exchange rate in our [Personal Terms](#) and our cryptocurrency exchange rate in our [Crypto Terms](#) and our bullion exchange rate in our [Precious Metal Terms](#).

The exchange rates we offer do not include any fees within the rate of exchange. Rather, we apply a percentage-based fee as set out below, which is shown separately in the Revolut app whenever you make an exchange.

FEES DURING EXCHANGE MARKET HOURS

THB and UAH

- 1.0%

Any other currency not listed above

- No fee (0%)

Cryptocurrencies

- 1.5%

Precious Metals

The highest fees relevant to your conversion will apply. For example, for a conversion between AUD and THB during exchange market hours, we will apply the fee that applies to THB (1%), not the fee for AUD (0%).

FEES APPLICABLE OUTSIDE EXCHANGE MARKET HOURS

An additional fee may apply to transactions made outside of exchange market hours. A transaction will be outside of exchange market hours if it is made between Friday 5pm (New York time) and Sunday 6pm (New York time), which is a U.S. based time zone. For reference

only, without taking into account daylight savings, the equivalent time period in Australia is approximately Saturday 7am (AEST) to Monday 8am (AEST).

You will be able to see the relevant exchange rate and the total of any applicable fees prior to transacting. This is not available for Revolut <18 users.
