Exchange

When you initiate an exchange in the Revolut app, we'll use a variable exchange rate. More information about the currency exchange rate can be found in our [Personal Terms](#), the cryptocurrency exchange rate in our [Crypto Terms](#) and the bullion exchange rate in our [Precious Metals Terms](#).

The exchange rates we offer do not include any fees within the rate of exchange. Rather, we apply a separate percentage-based fee (as set out below), which is shown separately in the Revolut app whenever you make an exchange.

Exchange fees

Exchange type	User type	Exchange amount	Fee
<p>Fiat Currencies*</p> <p>(excluding THB and UAH)</p>	Metal Customer	Any amount	A\$0

* The highest fees relevant to your conversion will apply. For example, a conversion between AUD and THB executed during exchange market hours, we will apply the fee that applies to THB (1%), not the fee for AUD (0%).

Exchange fees applicable outside exchange market hours

An additional fee will apply to fiat currency exchanges made outside of exchange market hours. An exchange will be outside of exchange market hours if it is made between Friday 5pm (New York time) and Sunday 6pm (New York time), which is a U.S. based time zone. For reference only, without taking into account daylight savings, the equivalent time period in Australia is approximately Saturday 7am (AEST) to Monday 8am (AEST).
