## Send

Everyone on Revolut can send money in one way or another for free.

Depending on your plan, you may only be able to make set types of payments, or a set number of them, for free. This page sets out the payments you can send for free on a Metal plan, and

the fees you will pay for other payments. If a fee applies we'll let you know in the Revolut app before you make the payment.

## Transfers to other Revolut Users

- 0 Ft. This means any Instant Transfer to any Revolut user, globally.

## Local payments

- 0 Ft. This means payments in your base currency that are sent to an account in your country.

## Cross-border EUR payments within the SEPA region

- 0 Ft. This means payments in euros that are sent to an account outside your country but inside the *Single Euro Payments Area* (known as "SEPA"). For Swedish customers, this also includes the same payments when made in Swedish krona. For Romanian customers, this also includes the same payments when made in Romanian leu.

## Cross-border payments outside the SEPA region

- 0 Ft. This means any other payments not covered above to non-Revolut accounts that are outside your country and not via SWIFT

## Payments sent via SWIFT

- Your first is 0 Ft, then 1000 Ft if the payment is in US dollars or 2000 Ft if it is in another currency. This means any payment where you send a payment to a country which is not in the national currency of that country. We'll let you know in the Revolut app if any charges apply, before you make the transfer.

## Pay All Fees feature

- When you make an international payment, intermediary banks may deduct fees from the amount you sent. Our "Pay All Fees" feature allows you to pay a flat upfront fee which guarantees that the recipient receives the full amount. This will be charged instead of the standard international payment fee.
- The amount of the fee depends on your base currency. It can change from time to time, but you will always see the current fee in the app before you agree to the transfer. You can see our current fees and the routes where this feature is available on our pricing page [here](#).
- A discount on this fee (if any) will be applied according to your price plan in the same way as for other international payment fees.

## Exchange

Whenever you make an exchange using Revolut within your plan's exchange limit:

- You get the Revolut exchange rate;
- We add an exchange fee (if one applies); and
- Where possible, we will tell you the total cost before you make the exchange.

This pricing applies to exchanges in money currencies. We've explained it in more detail below.

The only time you will pay more is if you exceed your plan's exchange limit. If you exceed this limit, you will be charged a fair usage fee on the additional amount. These limits are:

- **Standard and Plus:** Exchange limit of 350,000 Ft per month. Fair usage fee of 0.5% applies to any additional exchange.
- **Premium, Metal and Ultra:** No exchange limit. No fair usage fee.

Where possible, the rate, any fee and the total cost will be shown to you in the app before you make an exchange. You'll be able to take a look, compare it against our competitors, and decide if you like the total cost or not - we think you will like it. The only exception, where it is not possible to show you the total cost in advance, is when you make a card purchase that requires an exchange to take place in real time (for example, you make a purchase in USD, but you do not have an USD balance, meaning we need to perform the conversion in real time for you). However, after the transaction, you will be able to view the breakdown of the total cost within the app.

## Exchanging money currencies

Whenever you make a money currency exchange using Revolut, we use our Revolut exchange rate, add a fee (if one applies), and where possible show you the total cost.

We use our own Revolut exchange rate for money currency exchanges. This rate is set by us. It is a variable exchange rate (which means it is constantly changing). We think you'll really like it.

The fee we charge (if one applies) is an exchange fee. This is a variable fee (which means it is constantly changing) depending on the parameters of your exchange (like what you are exchanging and when). You can see what this fee is in the app.

Remember, your money currency exchanges count towards your exchange fair usage limit if you are a Standard or Plus customer (but not if you're a Premium, Metal or Ultra customer).

## Revolut Pro Account

If you have a Revolut Pro account, the below fees apply in relation to your use of your Revolut Pro account and any services available to you as a Revolut Pro customer like the payment processing product. Please see the [Revolut Pro Account terms](#) (which we call the "Pro Terms")

and the [Payment Processing Services Agreement](#) (which we call the “Payment Processing Terms”) for more information about the services these fees relate to.

**Revolut Pro Payment Processing Fees**

If you use our payment processing product as a Revolut Pro customer, the below fees will apply to your use of those services. Please see the Payment Processing Terms for more information on the services which these fees relate to, and our approach to blending fees.

The following fees will apply (we call these the “Revolut Pro Payment Processing Fees”):

- 2.5% for online payments,
- and 1.5% for offline payments using the Card Reader.

**Merchant Chargebacks**

If one of your customers disputes a transaction, they can raise a 'chargeback' request. For example, they may do so if they allege a transaction was fraudulent or a product was counterfeit or not delivered. If the chargeback is successful, the transaction will be refunded, but you'll be charged a chargeback fee. The chargeback fee depends on the currency of the original transaction, as set out below. You may be able to challenge the chargeback request. There is more information about disputes and chargebacks in our [Payment Processing Services Agreement](#).

The amount of the chargeback fee depends on the currency of the original transaction. If you provide evidence that the transaction has been legitimate and you delivered products or services according to the agreement with the customer, the issuer bank might revert the chargeback and you will also get the chargeback fee reverted back to your Revolut Pro account. Please see the details about chargeback fee amounts below:
