

The “Exchanging cryptocurrencies” section of this Fees Page was updated on **21 August 2024**. The new cryptocurrency terms will take effect on **20 September 2024** and we’ve indicated in that section what terms apply to new and existing cryptocurrency customers until that date.

Please see the previous version of the “Exchanging cryptocurrencies” section of the Fees page [here](#).

## Subscription

### Subscription fee

£14.99 a month or £140 a year.

## Add money

Add money by bank transfer to your home account (in your home country)

- Free

Add money by bank transfer to a local account (outside your home country)

- USA local accounts via Fedwire (wire transfer): £8

Add money using a UK or EEA issued card

- Free (except cash)

However, if you add money with a card that is issued somewhere else (e.g. in the USA, Switzerland or anywhere else that is not part of the UK or EEA) or you add money with a commercial card then we may charge a small fee to cover our costs.

Add money by Paysafe cash top-up

- 1.5% per transaction. Please see the limits [here](#).

## Card

### First Revolut Card

Free. Your first card can be a Metal, Premium or Standard one. (But remember, you may have to pay a card delivery fee and £40 for the Metal Card itself if you cancel

your subscription within 14 days of signing up and a Metal Card has been sent.)

## Second Revolut Card

Also free. Your second card can be a Metal, Premium or Standard one (unless your first card was Metal - you only get one free Metal Card). If you cancel your subscription within 14 days of ordering a second card, you may have to pay a card delivery fee.

## Additional Revolut Cards

Your first two cards are free as a Metal customer (as set out above). After this, we charge £40 per additional Metal Card (or £10 per additional non Metal Card).

## Custom Card (design your own card in the Revolut app)

This feature is subject to card stock availability. We'll tell you what fee applies before you order your card in the app. Express delivery of a Custom Card is free.

If you need to replace a Custom Card, the same fee applies.

## Special Edition Card

Price per card varies depending on the edition. (And a delivery fee applies - we'll tell you what fee applies before you order your card in the app.)

If you need to replace a Special Edition Card and the card is still on offer, you will need to pay the same fee again.

## Revolut Pro Card

If you have a Revolut Pro account and order a Revolut Pro Card, we'll show you what fee applies for the card before you order your card in the Revolut app (a delivery fee also applies - we'll tell you what fee applies before you order your card in the app).

Your Pro card does not count towards the card limit on your Personal plan.

## Express delivery for Revolut Cards

Free. (But remember, you may have to pay this back if you cancel your plan within 14 days of ordering the card.)

## Virtual Revolut Cards

Free.

## Spend

### ATM Withdrawals

Free withdrawals up to £800, then a fee applies. That fee is 2% of the withdrawal, subject to a minimum fee of £1 per withdrawal.

## Send

This page sets out the payments you can send for free on a Metal plan, and the fees you will pay for any other payments. If a fee applies, we'll let you know in the Revolut app before you make the payment.

### Instant transfers to other Revolut users

Free.

This means any Instant Transfer to any Revolut user, globally.

### Local payments

Free.

This means payments in your base currency that are sent to an account in your country.

### Payments within the Single European Payments Area

Free.

This means payments in euros that are sent to an account outside your country but inside the Single Euro Payments Area (known as "SEPA").

### Card transfers

A fee applies for card transfers.

This means payment directed to a supported non-Revolut card number, made using the Revolut app

This fee will be calculated in real time and shown to you in the app before you confirm the payment. You can also see our live fees [here](#). The exact fee will depend on the transaction itself (for example, on how much you are sending and where to).

## All other international payments

You can see our live fees for international payments [here](#). You will receive a 40% discount on the fee for any international payments you make, regardless of the number of international payments that you make. The 40% discount on the fee will be calculated for each international payment you make.

The fee (including the discount) will be calculated in real time and shown to you in the app before you make the payment. The exact fee will depend on what currency you are sending and where you are sending it to but our maximum fees are capped.

This relates to any international payment other than a payment within the Single Euro Payments Area (as set out above).

## Pay All Fees feature

- When you make an international payment, intermediary banks may deduct fees from the amount you sent. Our "Pay All Fees" feature allows you to pay a flat upfront fee which guarantees that the recipient receives the full amount. This will be charged instead of the standard international payment fee.
- The amount of the fee depends on your base currency. It can change from time to time, but you will always see the current fee in the app before you agree to the transfer. You can see our current fees and the routes where this feature is available on our pricing page [here](#).
- A discount on this fee will be applied according to your price plan in the same way as for other international payment fees.

## Exchange

Whenever you make an exchange using Revolut within your plan's exchange limit:

- You get the Revolut exchange rate;
- We add an exchange fee (if one applies); and
- Where possible, we will tell you the total cost before you make the exchange.

This pricing applies to exchanges in money currencies, cryptocurrencies and precious metals.

We've explained it in more detail below.

The only time you will pay more is if you exceed your plan's exchange limit. If you exceed this limit, you will be charged a fair usage fee on the additional amount. These limits are:

- **Standard:** Exchange limit of £1,000 per month. Fair usage fee of 1% applies to any additional exchange.
- **Plus:** Exchange limit of £3,000 per month. Fair usage fee of 0.5% applies to any additional exchange.
- **Premium, Metal and Ultra:** No exchange limit. No fair usage fee.

This exchange limit applies cumulatively across all types of exchange (money currencies, cryptocurrencies and precious metals). For example, if you're on the Standard plan, and have exchanged £500 of currency, £300 of crypto and £200 of precious metals within the month, you have reached your £1000 limit and any further exchange would incur the additional 1% fair usage fee.

Where possible, the rate, any fee and the total cost will be shown to you in the app before you make an exchange. You'll be able to take a look, compare it against our competitors, and decide if you like the total cost or not - we think you will like it. The only exception, where it is not possible to show you the total cost in advance, is when you make a card purchase that requires an exchange to take place in real time (for example, you make a purchase in EUR, but you do not have an EUR balance, meaning we need to perform the conversion in real time for you). However, after the transaction, you will be able to view the breakdown of the total cost within the app.

## Exchanging money currencies

Whenever you make a money currency exchange using Revolut, we use our Revolut exchange rate, add a fee (if one applies), and where possible show you the total cost. We use our own Revolut exchange rate for money currency exchanges. This rate is set by us. It is a variable exchange rate (which means it is constantly changing). We think you'll really like it.

The fee we charge (if one applies) is an exchange fee. This is a variable fee (which means it is constantly changing) depending on the parameters of your exchange (like what you are exchanging and when). You can see what this fee is in the app.

Remember, your money currency exchanges count towards your exchange fair usage limit if you are a Standard or Plus customer (but not if you're a Premium, Metal or Ultra customer).

## Exchanging cryptocurrencies

**This section of the Fees Page also applies to customers who have a Personal Account with Revolut Bank UAB and its branches if they receive cryptocurrency services from Revolut Ltd.**

Whenever you make a cryptocurrency exchange using Revolut, we use our simple and transparent pricing formula of rate + fee = total cost.

The exchange rate we use for crypto is set out in our Cryptocurrency Terms. It is set by us, based on the rate that the crypto exchanges offer us, and is a variable exchange rate (which means it is constantly changing). You can always see the current crypto exchange rate in the Revolut app.

### **Crypto fees**

We will charge you the following fees in relation to our crypto product depending on your plan. As always, we will show you the rate, the fee, and the total cost in the Revolut app before you make any exchange.

The only exception where it is not possible to show you the total cost in advance is when you make a cryptocurrency exchange using our "spare change round up" feature, in which case you will be able to view the breakdown of the total cost within the app, after your transaction is complete.

### **Metal Fees prior to 20 Sept 2024 will be:**

A tier-based structure.

The tier you are on is determined based on the combined volume of cryptoasset purchases and sales you make over a 30 day rolling basis. This calculation that impacts your pricing tier excludes:

- Exchanges between stablecoins and fiat currency.
- Exchanges between two stablecoins.
- Exchanges between commodities and crypto assets.
- Crypto withdrawals and deposits, if applicable
- Staked assets and staking rewards, if applicable
- Spare change round ups.

For the excluded transaction types, non-tiered fees will apply.

If you make a transaction that results in you moving up to a new tier, the fee that applies to that transaction will be the fee of the tier you are currently on, not the fee

of the new tier you would be on after your trade. For example, if you reside in the United Kingdom, are on a Metal plan and intend on making your first crypto purchase worth £70,000, the fee applied will be 0.99% based on the table below. However, your fee for any further purchase within 30 days will be 0.79% should you remain within this tier.

If you change the country in which you are domiciled on your Revolut account, then the trading balance from the previous 30 days will be reset to 0.

30 Days Volume (GBP)	Metal
$0 \leq x < 50k$	0.99%
$50k \leq x < 100k$	0.79%
$100k \leq x < 250k$	0.49%
$250k \leq x < 500k$	0.19%
$\geq 500k$	0.09%

You can see tiers based in your local currency [here](#).

Please note that we do not apply a percentage based fee to:

- exchanges between fiat currency and USDC or USDT (however, these fees will apply to exchanges between cryptocurrency and USDC or USDT).
- exchanges made using our “spare change round up” feature.

Remember, your crypto exchanges count towards your exchange fair usage limit if you are a Standard or Plus customer in any country, or a Premium customer in Spain or Greece (but not if you’re a Metal or Ultra customer, or a Premium customer in a country that is not Spain or Greece).

**Metal Fees on or after 20 Sept 2024 will be:**

A tier-based structure.

The tier you are on is determined based on the combined volume of cryptoasset purchases and sales you make over a 30 day rolling basis. This calculation that impacts your pricing tier excludes:

- Exchanges between stablecoins and fiat currency.
- Exchanges between two stablecoins.
- Exchanges between commodities and crypto assets.
- Crypto withdrawals and deposits, if applicable
- Staked assets and staking rewards, if applicable
- Spare change round ups.

For the excluded transaction types, non-tiered fees will apply.

If you make a transaction that results in you moving up to a new tier, the fee that applies to that transaction will be the fee of the tier you are currently on, not the fee of the new tier you would be on after your trade. For example, if you reside in the United Kingdom, are on a Metal plan and intend on making your first crypto purchase worth £70,000, the fee applied will be 0.99% based on the table below. However, your fee for any further purchase within 30 days will be 0.69% should you remain within this tier.

If you change the country in which you are domiciled on your Revolut account, then the trading balance from the previous 30 days will be reset to 0.

30 Days Volume (GBP)	Metal
$0 \leq x < 10k$	0.99%
$10k \leq x < 50k$	0.79%
$50k \leq x < 100k$	0.69%
$100k \leq x < 250k$	0.49%
$\geq 250k$	0.29%

You can see tiers based in your local currency [here](#).

Please note that we do not apply a percentage based fee to:

- exchanges between fiat currency and USDC or USDT (however, these fees will apply to exchanges between cryptocurrency and USDC or USDT).
- exchanges made using our “spare change round up” feature.

Remember, your crypto exchanges count towards your exchange fair usage limit if you are a Standard or Plus customer in any country, or a Premium customer in Spain or Greece (but not if you're a Metal or Ultra customer, or a Premium customer in a country that is not Spain or Greece).

## Exchanging precious metals

**This section of the Fees Page also applies to customers who have a Personal Account with Revolut Bank UAB and its branches if they receive precious metals services from Revolut Ltd.**

Whenever you make a precious metals exchange using Revolut, we use our simple and transparent pricing formula of rate + fee = total cost.

The exchange rate we use for precious metals is set out in our Precious Metals Terms. It is set by us, and is a variable exchange rate (which means it is constantly changing). You can always see the current precious metals exchange rate in the Revolut app.

For all precious metal conversions we charge the greater of a fixed minimum fee or a variable fee where:

1. The fixed minimum fee is UK 1 GBP (or local currency equivalent as shown in the list below); or
2. The variable fee is 1.99% of the value of the precious metal conversion for Standard and Plus users (and 1.49% for Premium, Metal and Ultra users).

**The fixed minimum country-specific fees are:**

- **UK** 1 GBP
- **Eurozone** 1 EUR
- **Bulgaria** 4 BGN
- **Switzerland** 1 CHF
- **Liechtenstein** 1 CHF
- **Czech Republic** 29 CZK
- **Denmark** 9 DKK
- **Hungary** 500 HUF
- **Norway** 10 NOK
- **Poland** 6 PLN
- **Romania** 6 RON
- **Sweden** 20 SEK
- **Iceland** 200 ISK

As always, we will show you the rate, the fee, and the total cost in the Revolut app before you make any exchange.

Remember, your precious metal conversions count towards your exchange fair usage limit if you are a Standard or Plus customer (but not if you're a Premium, Metal or Ultra customer).

The highest rate relevant to your conversion will apply.

## Revolut Pro Account

If you have a Revolut Pro account, the below fees apply in relation to your use of your Revolut Pro account and any services available to you as a Revolut Pro customer like the payment processing product. Please see the Revolut Pro Account terms (which we call the "Pro Terms") and the Payment Processing Services Agreement (which we call the "Payment Processing Terms") for more information about the services these fees relate to.

## Revolut Pro Payment Processing Fees

If you use our payment processing product as a Revolut Pro customer, the below fees will apply to your use of those services. Our fees for online payments include a percentage fee and a fixed fee. Please see the Payment Processing Terms for more information on the services which these fees relate to, and our approach to blending fees.

The following fees will apply (we call these the “**Revolut Pro Payment Processing Fees**”):

Payment Type	Fee
<b>Online payments</b>	
Visa/MasterCard payments using UK consumer cards	1% + GBP 0.20
Visa/MasterCard/American Express payments using any other cards	2.8% + GBP 0.20
American Express payments using UK consumer cards	1.7% + GBP 0.20
RevPay (Account to account)	1% + GBP 0.20
<b>In person card payments</b>	
Visa/MasterCard payments using UK consumer cards	1.5%
Visa/MasterCard payments using any other cards	1.5%
American Express payments using UK consumer cards	1.7%
American Express payments using any other cards	1.7%
Tap to Pay	1.7%

## Merchant Chargebacks

If one of your customers disputes a transaction, they can raise a 'chargeback' request. For example, they may do so if they allege a transaction was fraudulent or a product was counterfeit or not delivered. If the chargeback is successful, the transaction will be refunded, but you'll be charged a chargeback fee. The chargeback fee depends on the currency of the original transaction, as set out below. You may be able to challenge the chargeback request.

There is more information about disputes and chargebacks in our Payment Processing Services Agreement.

The amount of the chargeback fee depends on the currency of the original transaction. If you provide evidence that the transaction has been legitimate and you delivered products or services according to the agreement with the customer, the issuer bank might revert the chargeback and you will also get the chargeback fee reverted back to your Revolut Pro account.

Please see the details about chargeback fee amounts below:

AUD 30; CAD 25; CHF 20; DKK 130; EUR 15; GBP 15; HKD 150; JPY 2000; NOK 200; NZD 30; PLN 80; SEK 200; USD 20; ZAR 350.

To view this in the regulator's standardised format please click [here](#).

A glossary of the terms used in this document is available free of charge [here](#).

**Note:** If a fee is stated in a currency other than the base currency of your account, it will be charged in your base currency. This conversion is made and fixed using a reasonable exchange rate at the time each individual fee is set. This prevents fees fluctuating.
