Transfers in currencies other than the local currency of the recipient country <i>For example, sending a payment in AUD to a UK bank account.</i>	Fees apply.*  These fees are calculated in real time, and are based on what currency you are sending and where you are sending it to.  These fees are disclosed in the Revolut App prior to making a transaction and in the <a href="#">Currency Transfer Fees Section (Metal)</a> .

\* Please note that intermediary and receiving banks may also impose a charge on the recipient.

## Pay All Fees feature

When you send money overseas, intermediary banks may impose a charge on the recipient. This charge will be deducted from the amount you sent, meaning the recipient may receive less than the actual amount you sent. The Pay All Fees feature allows you to pay a flat upfront fee which ensures that the recipient receives the full amount you sent. This fee will be charged instead of the standard currency transfer fee.

You can see our current fees and the routes where this feature is available on the [Currency Transfer Fees Section \(Metal\)](#).

## Exchange

When you initiate an exchange in the Revolut app, we'll use a variable exchange rate, as set out in our [Personal Terms](#), the cryptocurrency exchange rate in our [Crypto Terms](#) and the

bullion exchange rate in our [Precious Metals Terms](#). We apply a separate minimum transaction or percentage-based fee (as set out below).

These fees are shown separately in the Revolut app whenever you make an exchange.

## Exchange fees

Exchange type*	User type	Fee**
Fiat Currencies	Metal Customer	A\$0
Revolut <18 Card transactions in a currency other than AUD	Revolut <18 User	A\$0
Cryptocurrencies (feature not available to Revolut <18 Users)	Metal Customer	0.99% of the value of the exchange
Precious Metals (feature not available to Revolut <18 Users)	Metal Customer	A\$1.99 for exchanges up to A\$133.56
		1.49% of the value of the exchange, for exchanges above A\$133.56

\* The highest fees relevant to your exchange type will apply. For example, for a conversion between AUD and BTC executed during exchange market hours, we will apply the fee that applies to BTC (0.99%), not the fee for AUD (0%).

\*\* Additional fees will apply to all exchange types if the Revolut <18 Card Exchange Allowance is exceeded, and for fiat currency exchanges made outside exchange market hours, as set out below.

## Fair Usage Limits

### Revolut <18 Card Exchange Allowance

For Revolut <18 Card transactions made in a currency other than AUD, the allowance is A\$450 per monthly billing cycle (the Revolut <18 Card Exchange Allowance).

For transactions that exceed the Revolut <18 Card Exchange Allowance, a 0.5% fee will apply.

## Exchange fees applicable outside exchange market hours

An additional fee will apply to fiat currency exchanges made outside of exchange market hours. An exchange will be outside of exchange market hours if it is made between Friday 5pm (New York time) and Sunday 6pm (New York time), which is a U.S. based time zone. For reference

only, without taking into account daylight savings, the equivalent time period in Australia is approximately Saturday 7am (AEST) to Monday 8am (AEST).
