Metal Account Cryptocurrency Exchange Fee

The cryptocurrency exchange fee you're charged is based on the combined volume of cryptocurrency purchases and sales you make over a 30 day rolling basis.

The following transactions are excluded from total purchase and sales:

- exchanges between commodities and crypto assets; and
- spare change round ups.

If you make an exchange that results in you moving up to a new fee tier, the fee that applies to that exchange will be the fee of the tier you are currently on, not the lower fee that applies to the new tier.
