Send

This page sets out the payments you can send for free on a Plus plan, and the fees you will pay for any other payments. If a fee applies, we'll let you know in the Revolut app before you make the payment.

Instant transfers to other Revolut Users

Free.

This means any Instant Transfer to any Revolut user, globally.

Local payments

Free.

This means payments in your base currency that are sent to an account in your country.

Payments within the Single European Payments Area

Free.

This means payments in euros that are sent to an account outside your country but inside the Single Euro Payments Area (known as "SEPA").

Card transfers

A fee applies for card transfers.

This means payment directed to a supported non-Revolut card number, made using the Revolut app

This fee will be calculated in real time and shown to you in the app before you confirm the payment. You can also see our live fees [here](#). The exact fee will depend on the transaction itself (for example, on how much you are sending and where to).

All other international payments

A fee applies for international payments on our Plus plans.

This fee will be calculated in real time and shown to you in the app before you make the payment. You can see our live fees [here](#). The exact fee will depend on what currency you are sending and where you are sending it to but our maximum fees are capped.

This relates to any international payment other than a payment within the Single Euro Payments Area (as set out above).

Pay All Fees feature

When you make an international payment, intermediary banks may deduct fees from the amount you sent. Our "Pay All Fees" feature allows you to pay a flat upfront fee

which guarantees that the recipient receives the full amount. This will be charged instead of the standard international payment fee.

The amount of the fee depends on your base currency. It can change from time to time, but you will always see the current fee in the app before you agree to the transfer. You can see our current fees and the routes where this feature is available on our pricing page [here](#).

Exchange

Whenever you make an exchange using Revolut within your plan's exchange limit:

- You get the Revolut exchange rate;
- We add an exchange fee (if one applies); and
- Where possible, we will tell you the total cost before you make the exchange.

This pricing applies to exchanges in money currencies, cryptocurrencies and commodities.

We've explained it in more detail below.

The only time you will pay more is if you exceed your plan's exchange limit. If you exceed this limit, you will be charged a fair usage fee on the additional amount. These limits are:

- **Standard:** Exchange limit of £1,000 per month. Fair usage fee of 1% applies to any additional exchange.
- **Plus:** Exchange limit of £3,000 per month. Fair usage fee of 0.5% applies to any additional exchange.
- **Premium, Metal and Ultra:** No exchange limit. No fair usage fee.

This exchange limit applies cumulatively across all types of exchange (money currencies, cryptocurrencies and commodities). For example, if you're on the Standard plan, and have exchanged £500 of currency, £300 of crypto and £200 of commodities within the month, you have reached your £1000 limit and any further exchange would incur the additional 1% fair usage fee.

Where possible, the rate, any fee and the total cost will be shown to you in the app before you make an exchange. You'll be able to take a look, compare it against our competitors, and decide if you like the total cost or not - we think you will like it. The only exception, where it is not possible to show you the total cost in advance, is when you make a card purchase that requires an exchange to take place in real time (for example, you make a purchase in EUR, but you do not have an EUR balance,

meaning we need to perform the conversion in real time for you). However, after the transaction, you will be able to view the breakdown of the total cost within the app.

Exchanging money currencies

Whenever you make a money currency exchange using Revolut, we use our Revolut exchange rate, add a fee (if one applies), and where possible show you the total cost. We use our own Revolut exchange rate for money currency exchanges. This rate is set by us. It is a variable exchange rate (which means it is constantly changing). We think you'll really like it.

The fee we charge (if one applies) is an exchange fee. This is a variable fee (which means it is constantly changing) depending on the parameters of your exchange (like what you are exchanging and when). You can see what this fee is in the app.

Remember, your money currency exchanges count towards your exchange fair usage limit if you are a Standard or Plus customer (but not if you're a Premium, Metal or Ultra customer).

Merchant Chargebacks

If one of your customers disputes a transaction, they can raise a "chargeback" request. For example, they may do so if they allege a transaction was fraudulent or a product was counterfeit or not delivered. If the chargeback is successful, the transaction will be refunded, but you'll be charged a chargeback fee. The chargeback fee depends on the currency of the original transaction, as set out below. You may be able to challenge the chargeback request.

There is more information about disputes and chargebacks in our Payment Processing Services Agreement.

The amount of the chargeback fee depends on the currency of the original transaction. If you provide evidence that the transaction has been legitimate and you delivered products or services according to the agreement with the customer, the issuer bank might revert the chargeback and you will also get the chargeback fee reverted back to your Revolut Pro account.

Administration fee

This section of the Fees Page only applies to new and existing customers from **30 October 2024**.

If we decide to close your Account, we'll usually give you **two months' notice** to withdraw your funds. If your Account continues to have a positive balance after two months, we may charge you an administration fee of £2 for each month that you continue to have a positive balance.

This fee is intended to cover the costs of maintaining closed Accounts. When we are unable to permanently close an Account because the Account continues to have positive account balance, we still have to provide you with the below services (this is not an exhaustive list):

- limited access to the app;
- customer support;
- payment and e-money services so you can withdraw your remaining positive account balance; and
- updated account information to reflect the remaining transfers out of your Account and your closing account balance.

All of these things cost us money so the administration fee allows us to recoup some of these losses, and encourages customers to withdraw the money from their Accounts before we close them. Just so you know, we will continue to charge the administration fee until your Account balance is zero, and this applies on top of any fees and limits for payments as we've outlined in the Personal Terms. We will let you know before we charge the administration fee so you have the opportunity to withdraw your remaining balance.

A glossary of the terms used in this document is available free of charge [here](#).

Note: If a fee is stated in a currency other than the base currency of your Account, it will be charged in your base currency. This conversion is made and fixed using a reasonable exchange rate at the time each individual fee is set. This prevents fees fluctuating.
