Transfers to other Revolut Users:

- Free.

SGD Transfers to Bank Accounts in Singapore:

- A fair usage limit of five (5) free transfers will apply to bank accounts in Singapore ("Fair Usage Limit"). Thereafter, you will be charged a fee of S\$2.99 for each transfer to bank accounts in Singapore. PDA sweep is excepted from the Fair Usage Limit.

Other Transfers:

- A fee will apply for any transfers of this kind. These fees are calculated in real time and depend on what currency you are sending and where you are sending it to.

These fees are disclosed to you in the Revolut App prior to making a transaction and in the annex titled "Currency Transfer Fees Section" at the bottom of this page.

Card transfers:

- A fee applies for card transfers.
- This means payment directed to a supported non-Revolut card number, made using the Revolut app
- This fee will be calculated in real time and shown to you in the app before you confirm the payment. The exact fee will depend on the transaction itself (for example, on how much you are sending and where to).
- The following fees apply for card transfers. All fees are priced in S\$ here, but will be charged in the currency of your transfer. The amount sent to the recipient, and your fee, will

always be shown to you in the app before you agree to the payment.

- Card transfers within Singapore, i.e to a Singapore issued card, will be free for the first 5 transfers a month. After that they will be charged at the following rates based on your plan:
 1. Standard: S\$2.99 per transfer
 2. Premium: S\$0.99 per transfer
 3. Metal: free
- For card transfers outside Singapore, you will be charged 0.8% of the amount you are sending and a fee of S\$1.75.
- The example table below shows how this works in practice on different size transactions. Remember that these fees only relate to the payment, so other fees may apply (for example, for foreign exchange) as well.

Amount you're sending	S\$10	S\$100	S\$500	S\$2,500
Fee for sending to a card in Singapore (within free limit)	S\$0	S\$0	S\$0	S\$0
Fee for sending to a card outside Singapore	S\$1.83	S\$2.55	S\$5.75	S\$21.75

Exchange

Whenever you make an exchange using Revolut, we use simple and transparent pricing:

- You get the real exchange rate;
- We add a small, transparent exchange fee (if one applies); and
- You see the total cost, with no hidden mark-ups or surprises.

This pricing applies to exchanges in money currencies. We've explained it in more detail below. The only time you will pay more than this is if you make any exchange on the weekends (thereby incurring the weekend fees) and if you exceed the exchange fair usage limit for your plan. If you do, you will be charged an exchange fair usage fee on any exchange above the limit. Our Standard plan allows you to make S\$5,000 of exchange per month without an exchange fair usage fee, while Premium gives you a S\$15,000 allowance. However, after that, an exchange fair usage fee of 1% applies for Standard users and 0.5% for Premium users. You can avoid this completely by upgrading to a Metal plan (if you haven't already), which doesn't have any exchange fair usage limits.

In all cases, the rate, and any fee (if one applies), will be shown to you separately in the app, along with the total cost, before you make an exchange. You'll be able to take a look, compare it against our competitors, and decide if you like the overall price or not - we think you will like it.

Fees during Foreign Exchange Market Hours for Standard Plan Customers

No fee for all currencies

Fees outside Foreign Exchange Market Hours for Standard Plan Customers

1.0% fee for all currencies

Exchanging precious metals

Whenever you make a precious metals exchange using Revolut, we use our simple and transparent pricing formula of rate + fee = total cost.

The exchange rate we use for precious metals is set out in our Precious Metals Terms. It is set by us, and is a variable exchange rate (which means it is constantly changing). You can always see the current precious metals exchange rate in the Revolut app.

For all precious metal conversions, we charge the greater of a fixed minimum fee or a variable fee where:

The fixed minimum fee is SGD\$1.49; or

The variable fee is 1.99% of the value of the precious metal conversion for Standard users (and 1.49% for Premium and Metal users).

We don't charge you any other fees for this service.

As always, we will show you the rate, the fee, and the total cost in the Revolut app before you make any exchange.

Remember, your precious metal conversions count towards your exchange fair usage limit if you are a Standard or Premium customer (but not if you're a Metal customer).

Exchanging cryptocurrencies

Whenever you make a cryptocurrency exchange using Revolut, we use our simple and transparent pricing formula of rate + fee = total cost.

The exchange rate we use for crypto is set out in our Cryptocurrency Terms. It is set by us, based on the rate that the crypto exchanges offer us, and is a variable exchange rate (which means it is constantly changing). You can always see the current crypto exchange rate in the Revolut app.

Crypto fees

From the week of 7th November 2022, we will charge you the following fees in relation to our crypto product depending on your plan:

- Standard users: 1.99% of the value of your crypto transaction or the currency equivalent of SGD\$1.49, whichever is greater. This 'minimum fee' amount is based on the currency of your residence.
- Premium and Metal users: 1.49% of the value of your crypto transaction.

As always, we will show you the rate, the fee, and the total cost in the Revolut app before you make any exchange.

Remember, your crypto exchanges count towards your exchange fair usage limit if you are a Standard customer but not if you're a Premium or Metal customer.

Currency Transfer Fees Section

Note: Revolut is building an online tool to calculate the exact fee you will be charged for international transfers, which will replace this section when completed.

Local Currency Transfers

A local currency transfer occurs when a transfer is made in the local currency of the recipient country, like when you send USD to the USA.

A fixed percentage fee of the total transfer amount will apply to all local currency transfers (subject to a minimum fee of S\$1.49).

For further information please refer to the fee tables below.

Fees and Caps (Local Currency Transfers)

Recipient currency	Fee, %	Minimum fee, SGD equivalent
<i>All currencies</i>	0.40%	S\$1.49

*Please note that transfers to the following countries may only be transacted in local currency: Brazil (BRL), Indonesia (IDR), India (INR), Sri Lanka (LKR), Malaysia (MYR), Philippines (PHP) and Vietnam (VND).

Illustrative Examples

The example table below shows how this works in practice across different size transactions. Remember that these fees only relate to the transfer, so other fees may apply (for example, for foreign exchange) as well.

Local Currency Transfers	Transfer amount (S\$ equivalent)					
	S\$10	S\$100	S\$500	S\$2,000	S\$10,000	S\$20,000
All currencies	S\$1.49	S\$1.49	S\$2.00	S\$8.00	S\$40.00	S\$80.00

Foreign Currency Transfers

A foreign currency transfer occurs when a transfer is made that is not in the local currency of the recipient country (for example, sending USD to the UK) or you make a foreign currency transfer between Singaporean accounts (for example, sending USD to a DBS Multi-currency account).

A flat fee will apply to any foreign currency transfer as set out in the table below. Remember that these fees only relate to the transfer, so other fees may apply (for example, for foreign exchange) as well.

Foreign Currency Transfers	Transfer amount (S\$ equivalent)				
	S\$10	S\$100	S\$500	S\$2,000	S\$10,000
<ul style="list-style-type: none"> • USD outside of USA • GBP outside of UK 	S\$5.00	S\$5.00	S\$5.00	S\$5.00	S\$5.00

<ul style="list-style-type: none"> • EUR outside of Eurozone • CHF outside of Switzerland 					
<ul style="list-style-type: none"> • Any other currency that is not the local currency of the recipient country • Any domestic transfer of a foreign currency to a bank account in SG 	S\$9.00	S\$9.00	S\$9.00	S\$9.00	S\$9.00

Pay All Fees feature

When you make an international payment, intermediary banks may deduct fees from the amount you sent. Our "Pay All Fees" feature allows you to pay a flat upfront fee which guarantees that the recipient receives the full amount. This will be charged instead of the standard international payment fee.

The amount of the fee depends on your base currency. It can change from time to time, but you will always see the current fee in the app before you agree to the transfer. You can see our current fees and the routes where this feature is available on our pricing page [here](#).
