Please note that the ATM provider may still charge you a fee for making an ATM withdrawal.

Transfers

Transfers to other Revolut Users

Free.

Other Transfers without currency conversion:

A fee will apply for transfers to non Revolut Users based on currency and destination. All fees are disclosed to you in the Revolut App prior to making a transaction.

Other Transfers with currency conversion:

A currency conversion transfer occurs when a transfer is made that is not in the local currency of the recipient country (for example, sending USD to the UK).

- 0.5% fee for all other transfers (local to someone else or international).

The fair usage limit (BRL 10,000 per month) also applies to this kind of transfer. After that limit, an exchange fair usage fee of 1% applies.

Card Transfers

Card transfers will be charged BRL 7.50 + 0.8% of the amount transferred.

Exchange

Whenever you make a currency exchange using Revolut, we use simple and transparent pricing:

- You get the Revolut exchange rate;
- We add an exchange fee (if one applies); and
- Where possible, we will tell you the total cost before you make the exchange.

This pricing applies to exchanges in FIAT currencies. We've explained it in more detail below.

Exchanges involving BRL

Standard customers are entitled to a monthly fee-free currency exchange allowance of **BRL 1,000**. This limit applies to the aggregate volume of all transactions, including both conversions from BRL into foreign currencies and conversions from foreign currencies back into BRL.

Once you exceed this limit, a total fee of **1.4%** for exchanging BRL to foreign currencies and **1.0%** exchanging foreign currencies to BRL shall be applied to the value of each subsequent exchange transaction performed within the same monthly cycle.

Between Other Currencies

The only time you will pay fees when exchanging currencies other than BRL is if you make any exchange on the weekends (thereby incurring the weekend fees) and if you exceed the exchange fair usage limit (BRL 10,000 per month). If you do, you will be charged an exchange fair usage fee on any exchange above the limit.

Then, when you exchange between Other Currencies, the fees applicable will be:

- Free of charge during weekdays, limited to BRL 10,000 per month (fair usage limit);
- 1.0% fee for weekend exchanges, from Friday afternoon to Sunday afternoon (weekend fee); and
- Additional 0,5% of fair usage fee if you exceed the limit of BRL 10,000 per month.

In all cases, the rate and any fee (if one applies), will be shown to you separately in the app, along with the total cost, before you make an exchange. You'll be able to take

a look, compare it against our competitors, and decide if you like the overall price or not - we think you will like it.

Cryptocurrencies

Whenever you make a cryptocurrency exchange using Revolut, we use our pricing formula that is "rate + fee = total cost".

The exchange rate we use for crypto is set out in our Cryptocurrency Terms. It is set by us, based on the rate that the crypto exchanges offer us, and is a variable exchange rate (which means it is constantly changing). You can always see the current crypto exchange rate in the Revolut app.

Crypto Fees

When you exchange cryptocurrencies, we will charge you the following fees:

- 1.0% fee of the value of your crypto transaction or the currency equivalent of USD 1, whichever is greater. This fee amount is based on the currency of your residence.

As always, we will show you the rate, the fee, and the total cost in the Revolut app before you make any exchange.

Remember, your crypto exchanges count towards your exchange fair usage limit (BRL 10,000/month) of your Standard plan.
