Outbound or Inbound U.S. Domestic Wire

\$10.00 fee for each U.S. Domestic Wire transfer to or from each account.

Exchange

Currency Exchange: Whenever you make a currency exchange in the Revolut app (except cryptocurrency conversions), we'll use an exchange rate based on our market rate, which is based on foreign-exchange market rates. There is more information about our exchange rate in our [Personal Terms](#) and [Cardholder Agreement](#). The rate we use to convert your money into cryptocurrency (and back) is based on the rate we get from our partner provider; you can find out more information about our rates in our Cryptocurrency terms.

Crypto Exchange

Up to \$200,000: You can exchange up to \$200,000 in crypto with our partner cryptocurrency provider, Bakkt Crypto, without crypto commission fees each month.

Above \$200,000: You will be charged a crypto commission fee of 2.5%.

Foreign Exchange

All Standard Plan customers can make a set amount of exchanges at the below rate every month. Standard Plan customers who exchange more than this amount start paying a fair usage fee.

Everyone on Revolut whose base currency is USD can make up to \$1,000 of exchanges at this rate each month. Standard plan customers who exchange more than this will begin paying a fair usage fee of 0.5% on any additional amount.

This \$1,000 is calculated across all types of exchanges, of all currencies, each monthly billing cycle (or, for Standard plan customers, each monthly anniversary of your sign up date). This means it is calculated as the total of all your exchanges in traditional currencies during the cycle.

We charge a higher fee outside foreign-exchange-market hours because less currency is traded during these times, as set out below. Foreign-exchange-market hours are all hours except 5:00pm on Friday to 6:00pm on Sunday Eastern Time.

See Schedule A of the [Cardholder Agreement](#) for complete details.

FEES DURING FOREIGN EXCHANGE MARKET HOURS

All currencies: No fee

FEES OUTSIDE FOREIGN EXCHANGE MARKET HOURS

All currencies: 1.0%

International Money Transfers and Non-USD Domestic Transfers

International Transfers are defined as a transaction in a currency other than U.S. dollars, whether within the U.S. or globally.

If you transfer funds to an external bank account in a country outside of the U.S., this is considered an **“International Transfer”**.

If you transfer funds domestically in a currency other than USD, this is considered a **“Non-USD Domestic Transfer”**.

The following limits and fees apply to International Transfers and Non-USD Domestic Transfers with your Revolut Standard plan:

- International Transfers and Non-USD Domestic Transfers of \$200 USD or greater will incur a fee of up to 5% on the transaction amount.
- International Transfers and Non-USD Domestic Transfers less than \$200 USD will incur a fee of up to \$10.00, depending on the amount of the transfer.

See Schedule A of the [Cardholder Agreement](#) for complete details about the fees that apply to your Plan.

Please note that the beneficiary bank could also charge a fee to receive your transfer. When your money is in transit, it might be processed by an intermediary bank who might also deduct a handling fee. Therefore, the amount received might be less than the amount you sent.

Intermediary bank fees may be applied even in the event of an unsuccessful transfer.

Pay All Transfer Fees feature (International Transfers and Non-USD Domestic Transfers Only)

The Pay All Transfer Fees Feature allows you to pay a flat upfront fee which is charged instead of the International Transfer or Non-USD Domestic Transfer fee that would otherwise apply.

Refer to the [Cardholder Agreement](#) for complete details.
