## Exchange

**Currency Exchange:** Whenever you make a currency exchange in the Revolut app, we'll use an exchange rate based on our market rate, which is based on foreign-exchange market rates. There is more information about our exchange rate in our [Personal Terms](#) and [Cardholder Agreement](#).

## Foreign Exchange

All Standard Plan customers can make a set amount of exchanges at the below rate every month. Standard Plan customers who exchange more than this amount start paying a fair usage fee.

Everyone on Revolut whose base currency is USD can make up to \$1,000 of exchanges at this rate each month. Standard plan customers who exchange more than this will begin paying a fair usage fee of 0.5% on any additional amount. This \$1,000 is calculated across all types of exchanges, of all currencies, each monthly billing cycle (or, for Standard plan customers, each monthly anniversary of your sign up date). This means it is calculated as the total of all your exchanges in traditional currencies during the cycle.

We charge a higher fee outside foreign-exchange-market hours because less currency is traded during these times, as set out below. **Foreign-exchange-market hours are all**

hours except 5:00pm on Friday to 6:00pm on Sunday Eastern Time.

| Currency Exchange Fees                            |                        |
|---|------------------------|
| <b>FEES DURING FOREIGN EXCHANGE MARKET HOURS</b>  | All currencies: No fee |
| <b>FEES OUTSIDE FOREIGN EXCHANGE MARKET HOURS</b> | All currencies: 1.0%   |

See Schedule A of the [Cardholder Agreement](#) for complete details.

## International and Foreign Currency Transfers Fees

If you want to make a transfer to someone who lives in a different country or using a different currency the following rules apply to your transfers:

- A **“Local Currency International Transfer”** is a transfer made in the currency of the recipient country (for example, when sending GBP to England);
- A **“Foreign Currency International Transfer”** is a transfer made that is not in the currency of the recipient country. For example, when sending GBP to France; and
- A **“Foreign Currency Domestic Transfer”** is a transfer made to a recipient located in the United States, in a currency other than USD.
- The **“Pay All Transfer Fees”** feature applies when a local currency route listed above is not available. The Pay All Transfer Fees feature, is a flat fee, based on your Revolut Plan, that is intended to cover both the Revolut fee and any intermediary bank fees that could be incurred.

Foreign Currency International Transfer and Foreign Currency Domestic Transfer fees do not cover any intermediary or recipient bank fees that could be incurred. Please note that fees from the recipient bank may apply and this could affect the final amount made available to the recipient.

| Type of Transfer  | Fee                                     |
|---|---|
| <b>Local Currency International Transfers</b>   | 0.15% (minimum fee \$0.75) per transfer |
| <b>Foreign Currency International Transfers or Foreign Currency Domestic Transfer</b> | Up to \$6.00                            |
| <b>Pay All Transfer Fees</b>  | \$30 flat fee per transfer              |

In addition, Exchange Rate Fees (outside foreign market hours) and Currency Exchange Usage Fees may apply depending on your Plan.

**See Schedule A of the [Cardholder Agreement](#) for complete details about the fees that apply to your Plan.**
