Ausgaben

Der folgende Abschnitt gilt ab dem 15. Oktober 2026

Bargeldabhebungen am Geldautomaten

- Die ersten 2.000 € pro rollierendem Monat sind gebührenfrei. Weitere Abhebungen werden mit 2 % des Abhebungsbetrags oder 1 € berechnet, je nachdem, welcher Betrag höher ist.
- **Kartenlose Geldautomatenauszahlungen mit BLIK:** Für jede Auszahlung berechnen wir eine Gebühr von 2 % des abgehobenen Betrags bzw. mindestens 5 PLN (je nachdem, welcher Betrag höher ist). Diese Gebühr buchen wir immer von deinem PLN-Unterkonto ab. Für alle anderen Geldautomatenauszahlungen gelten die oben aufgeführten Gebühren (falls zutreffend).

Senden

Diese Seite erläutert die Zahlungen, die du mit einem Ultra-Abo kostenlos senden kannst, und die Gebühren, die für alle anderen Zahlungen anfallen. Wenn eine Gebühr anfällt, informieren wir dich darüber in der Revolut App, bevor du die Zahlung durchführst.

Echtzeitüberweisungen an andere Revolut-Nutzer

- Kostenlos. Das gilt für alle Echtzeitüberweisungen an andere Revolut-Nutzer weltweit.

Lokale Zahlungen

- Kostenlos. Das gilt für Zahlungen in deiner Basiswährung, die an ein Konto in deinem Land gesendet werden.

Zahlungen innerhalb des europäischen Zahlungsraums

- Kostenlos. Das gilt für Zahlungen in Euro, die an ein Konto außerhalb deines Landes, aber innerhalb des europäischen Zahlungsraums (bekannt als „SEPA-Raum“) gesendet werden.

Überweisungen an eine Karte

- Für Überweisungen an eine Karte fällt eine Gebühr an.
- Dies bedeutet, dass mit der Revolut App eine Zahlung an eine unterstützte Nicht-Revolut-Kartennummer vorgenommen wird. Diese Gebühr wird in Echtzeit berechnet und dir in der App angezeigt, bevor du die Zahlung bestätigst. Du findest unsere Live-Gebühren auch hier. Die genaue Gebühr hängt von der Transaktion selbst ab (z. B. davon, wie viel du sendest und wohin).

Alle anderen internationalen Zahlungen

- Du kannst unsere aktuellen Gebühren für internationale Zahlungen hier sehen.
- Du erhältst einen Rabatt von 100 % auf die Gebühr für alle internationalen Zahlungen, die du tätigst, unabhängig von deren Anzahl. Der Gebührenrabatt von 100 % wird für jede internationale Zahlung berechnet, die du tätigst. Die Gebühr (einschließlich des Rabatts) wird dir in der App angezeigt, bevor du eine Zahlung durchführst. Die genaue Gebühr hängt davon ab, welche Währung du sendest und wohin du sie sendest.
- Das gilt für alle internationalen Zahlungen (mit Ausnahme von Zahlungen innerhalb des europäischen Zahlungsraums, wie oben erläutert).

Funktion „Alle Gebühren zahlen“

- Wenn du eine internationale Zahlung vornimmst, können zwischengeschaltete Banken Gebühren von dem von dir gesendeten Betrag abziehen. Unsere Funktion „Alle Gebühren bezahlen“ ermöglicht es dir, eine pauschale Vorauszahlung zu leisten, die garantiert, dass der Empfänger den vollen Betrag erhält. Diese Gebühr wird anstelle der Standardgebühr für internationale Zahlungen erhoben.
- Die Höhe der Gebühr hängt von deiner Basiswährung ab. Sie kann sich von Zeit zu Zeit ändern, aber du wirst die aktuelle Gebühr immer in der Revolut App sehen, bevor du der Überweisung zustimmst. Unsere aktuellen Gebühren und Routen, auf denen diese Funktion verfügbar ist, findest du hier.
- Ein Rabatt auf diese Gebühr (falls zutreffend) wird gemäß deinem Preisplan auf die gleiche Weise angewendet wie für andere internationale Zahlungsgebühren.

Währungswechsel

Wann immer du einen Währungswechsel mit Revolut innerhalb des Wechsellimits deines Abos vornimmst:

- erhältst du immer den Revolut Wechselkurs
- erheben wir eine Wechselgebühr (sofern eine solche anfällt) und
- wenn möglich, werden wir dir die Gesamtkosten mitteilen, bevor du den Währungswechsel vornimmst.

Diese Gebühren gelten für den Wechsel von Geldwährungen. Wir haben sie weiter unten ausführlicher erklärt.
Du zahlst nur dann mehr, wenn du das für dein Abo geltende Wechsellimit für die faire Nutzung überschreitest. Wenn du dieses Limit überschreitest, wird dir für den zusätzlichen Betrag eine faire Nutzungsgebühr berechnet. Diese Limits sind:

- **Standard:** Wechsellimit von 1.000 EUR pro Monat. Für jeden zusätzlichen Währungswechsel fällt eine faire Nutzungsgebühr von 0,5 % an.
- **Plus:** Wechsellimit von 3.000 EUR pro Monat. Für jeden zusätzlichen Währungswechsel fällt eine faire Nutzungsgebühr von 0,5 % an.
- **Premium, Metal und Ultra:** Kein Wechsellimit. Keine faire Nutzungsgebühr.

Wenn möglich, werden dir der Kurs, eventuelle Gebühren und die Gesamtkosten in der App angezeigt, bevor du einen Währungswechsel vornimmst. Du kannst einen Blick darauf werfen, sie mit unseren Konkurrenten vergleichen und entscheiden, ob dir die Gesamtkosten gefallen oder nicht – wir denken, dass sie dir gefallen werden. Die einzige Ausnahme, in der es nicht möglich ist, dir die Gesamtkosten im Voraus anzuzeigen, ist, wenn du einen Kartenkauf tätigst, der einen Währungswechsel in Echtzeit erfordert (z. B. wenn du einen Kauf in USD tätigst, aber kein Guthaben in USD hast, so dass wir den Währungswechsel in Echtzeit für dich vornehmen müssen). Nach der Transaktion kannst du jedoch die Aufschlüsselung der Gesamtkosten in der App einsehen.

Wechsel von Geldwährungen

Wenn du einen Währungswechsel mit Revolut durchführst, verwenden wir unseren Revolut Wechselkurs, fügen eine Gebühr hinzu (falls eine anfällt) und zeigen dir, wenn möglich, die Gesamtkosten an.
Wir verwenden unseren eigenen Revolut-Wechselkurs für einen Währungswechsel. Dieser Kurs wird von uns festgelegt. Es handelt sich um einen variablen Wechselkurs, der sich laufend ändert.

Das bedeutet, dass die Kauf- und Verkaufpreise für Fremdwährungen anhand einer Reihe von Daten verschiedener unabhängiger Quellen sowie der Höhe des Transaktionsbetrags festgelegt werden. Du kannst die Wechselkurse für Fremdwährungen auf unserer Webseite oder in der App einsehen.
Die Wechselkurse bleiben dieselben, unabhängig davon, ob der Währungswechsel in der App oder im Rahmen einer Überweisung oder Zahlung stattfindet.
Bei der von uns erhobenen Gebühr (sofern zutreffend) handelt es sich um eine Wechselgebühr. Das ist eine variable Gebühr (was bedeutet, dass sie sich laufend ändert), die von den Eigenschaften deines Währungswechsel abhängt (zum Beispiel davon, was du wann umtauschst). Du kannst diese Gebühr in der App sehen.
Denke daran, dass der Währungswechsel auf dein Wechsellimit angerechnet wird, wenn du Standard- oder Plus-Kunde bist (aber nicht, wenn du Premium-, Metall- oder Ultra-Kunde bist).
Weitere Informationen über den Währungswechsel, den Revolut Wechselkurs und die Wechselgebühr findest du in unseren FAQs.

Wenn du ein Revolut Pro-Konto hast, gelten die unten aufgeführten Gebühren für die Nutzung des Revolut Pro-Kontos und für alle Dienste, die dir als Revolut Pro-Kunde zur Verfügung stehen, wie z. B. das Produkt zur Zahlungsabwicklung. Weitere Informationen zu den Dienstleistungen, für die diese Gebühren anfallen, findest du in den Allgemeine Geschäftsbedingungen für Revolut Pro (die wir als „**Pro-Geschäftsbedingungen**“ bezeichnen) und in der Vereinbarung über Zahlungsabwicklungsdienste (die wir als „**Zahlungsabwicklung Bedingungen**" bezeichnen).

Versandgebühr für Revolut Pro-Karten

Die Versandgebühr hängt von der Versandart ab, die du bei der Bestellung der Karte ausgewählt hast.

- Standardversand (ohne Sendungsverfolgung): 7,99 EUR
- Expressversand (mit Sendungsverfolgung): 19,99 EUR

- Blitzschneller Versand: 9,99 EUR

Händler-Rückbuchungen (Chargeback)

Wenn einer deiner Kunden eine Transaktion anfechtet, kann er eine „Rückbuchung“ beantragen. Das kann beispielsweise der Fall sein, wenn sie behaupten, eine Transaktion sei auf betrügerische Weise erfolgt oder ein Produkt sei gefälscht oder nicht geliefert worden. Wenn die Rückbuchung erfolgreich ist, wird die Transaktion zurückerstattet, aber dir wird eine Rückbuchungsgebühr berechnet. Die Rückbuchungsgebühr hängt von der Währung der ursprünglichen Transaktion ab, wie unten beschrieben. Möglicherweise kannst du die Rückzahlungsforderung anfechten. Weitere Informationen zu Auseinandersetzungen und Rückbuchungen findest du in unserer Vereinbarung über Zahlungsabwicklungsdienste.

Die Rückbuchungsgebühr hängt von der Währung der ursprünglichen Transaktion ab. Wenn du nachweisen kannst, dass die Transaktion rechtmäßig war und du die Produkte oder Dienstleistungen entsprechend der Vereinbarung mit dem Kunden geliefert hast, kann die ausstellende Bank die Rückbuchung rückgängig machen. In diesem Fall bekommst du auch die Rückbuchungsgebühr auf dein „Revolut Pro“-Konto zurückerstattet.

Send

This page sets out the payments you can send for free on an Ultra plan, and the fees you will pay for any other payments. If a fee applies, we'll let you know in the Revolut app before you make the payment.

Instant Transfers to other Revolut Users

- Free. This means any Instant Transfer to any Revolut user, globally.

Local payments

- Free. This means payments in your base currency that are sent to an account in your country.

Payments within the Single European Payments Area

- Free. This means payments in euros that are sent to an account outside your country but inside the Single Euro Payments Area (known as "SEPA").

Card transfers

- A fee applies for card transfers.
- A fee applies for card transfers. This means payments directed to a supported non-Revolut card number, made using the Revolut app. This fee will be calculated in real time and shown to you in the Revolut app before you confirm the payment.

You can also see our live fees here. The exact fee will depend on the transaction itself (for example, on how much you are sending and where to).

All other international payments

- You can also see our live fees for international payments here.
- You will receive a 100% discount on the fee for any international payments you make, regardless of the number of international payments that you make. The 100% discount on the fee will be calculated for each international payment you make. The fee (including the discount) will be shown to you in the Revolut app before you make the payment. The exact fee will depend on what currency you are sending and where you are sending it to but our maximum fees are capped.
- This means any international payment (other than a payment within the Single Euro Payments Area, as set out above)

Pay All Fees feature

- When you make an international payment, intermediary banks may deduct fees from the amount you sent. Our “Pay All Fees” feature allows you to pay a flat upfront fee which guarantees that the recipient receives the full amount. This will be charged instead of the standard international payment fee.
- The amount of the fee depends on your base currency. It can change from time to time, but you will always see the current fee in the Revolut app before you agree to the transfer. You can see our current fees and the routes where this feature is available on our pricing page here.

Exchange

Whenever you make an exchange using Revolut within your plan’s exchange limit:

- You get the Revolut exchange rate;
- We add an exchange fee (if one applies); and
- Where possible, we will tell you the total cost before you make the exchange.

This pricing applies to exchanges in money currencies. We’ve explained it in more detail below.
If you exceed your plan’s exchange limit, you will be charged a fair usage fee on the additional amount. These limits are:

- **Standard:** Exchange limit of EUR 1,000 per month. Fair usage fee of 0.5% applies to any additional exchange.
- **Plus:** Exchange limit of EUR 3,000 per month. Fair usage fee of 0.5% applies to any additional exchange.
- **Premium, Metal and Ultra**: No exchange limit. No fair usage fee.

Where possible, the rate, any fee and the total cost will be shown to you in the Revolut app before you make an exchange. You'll be able to take a look, compare it against our competitors, and decide if you like the total cost or not - we think you will like it. The only exception, where it is not possible to show you the total cost in advance, is when you make a card purchase that requires an exchange to take place in real time (for example, you make a purchase in USD, but you do not have a USD balance, meaning we need to perform the conversion in real time for you). However, after the transaction, you will be able to view the breakdown of the total cost within the Revolut app.

Exchanging money currencies

Whenever you make a money currency exchange using Revolut, we use our Revolut exchange rate, add a fee (if one applies), and where possible show you the total cost. We use our own Revolut exchange rate for money currency exchanges. This rate is set by us. It is a variable exchange rate and is constantly changing. This means that the money currency buy and sell rates are determined based on data feeds from a range of independent sources, as well as the amount of the transaction. You can view the currency exchange rate on our website or in-app.
Exchange rates will be the same whether it's done as an in-app exchange, an exchange for a transfer, or an exchange for a payment.
The fee we charge (if one applies) is an exchange fee. This is a variable fee (which means it is constantly changing) depending on the parameters of your exchange (like what you are exchanging and when). You can see what this fee is in the app.
Remember, your money currency exchanges count towards your exchange fair usage limit if you are a Standard or Plus customer (but not if you're a Premium, Metal or Ultra customer).
Please see our FAQ for more information about the money currency exchange, Revolut exchange rate and exchange fee.

Merchant Chargebacks

If one of your customers disputes a transaction, they can raise a 'chargeback' request. For example, they may do so if they allege a transaction was fraudulent or a product was counterfeit or not delivered. If the chargeback is successful, the transaction will be refunded, but you'll be charged a chargeback fee. The chargeback fee depends on the currency of the original transaction, as set out below. You may be able to challenge the chargeback request.

There is more information about disputes and chargebacks in our Payment Processing Services Agreement.

The amount of the chargeback fee depends on the currency of the original transaction. If you provide evidence that the transaction has been legitimate and you delivered products or services according to the agreement with the customer, the issuer bank might revert the chargeback and you will also get the chargeback fee reverted back to your Revolut Pro account.

Plan Cashback

- The maximum Plan Cashback you can receive in one monthly billing cycle is equivalent to your monthly plan fee.

Send

This page sets out the payments you can send for free on a Ultra plan, and the fees you will pay for any other payments. If a fee applies, we'll let you know in the Revolut app before you make the payment.

Instant transfers to other Revolut Users

- Free. This means any Instant Transfer to any Revolut user, globally.

Local payments

- Free. This means payments in your base currency that are sent to an account in your country.

- Free. This means payments in euros that are sent to an account outside your country but inside the Single Euro Payments Area (known as "SEPA"). For Swedish customers, this also includes the same payments when made in Swedish krona. For Romanian customers, this also includes the same payments when made in Romanian leu.

Card transfers

A fee applies for card transfers.

- A fee applies for card transfers. This means payment directed to a supported non-Revolut card number, made using the Revolut app. This fee will be calculated in real time and shown to you in the app before you confirm the payment. You can also see our live fees here. The exact fee will depend on the transaction itself (for example, on how much you are sending and where to).

All other international payments

- You can see our live fees for international payments here.
- You will receive a 100% discount on the fee for any international payments you make, regardless of the number of international payments that you make. The 100% discount on the fee will be calculated for each international payment you make. The fee (including the discount) will be shown to you in the app before you make the payment. The exact fee will depend on what currency you are sending and where you are sending it to.
- This means any international payment (other than a payment within the Single Euro Payments Area, as set out above).

Pay All Fees feature

- When you make an international payment, intermediary banks may deduct fees from the amount you sent. Our “Pay All Fees” feature allows you to pay a flat upfront fee which guarantees that the recipient receives the full amount. This will be charged instead of the standard international payment fee.
- The amount of the fee depends on your base currency. It can change from time to time, but you will always see the current fee in the app before you agree to the transfer. You can see our current fees and the routes where this feature is available on our pricing page here.
- A discount on this fee (if any) will be applied according to your price plan in the same way as for other international payment fees.

Exchange

Whenever you make an exchange using Revolut within your plan's exchange limit:

- You get the Revolut exchange rate;
- We add an exchange fee (if one applies); and
- Where possible, we will tell you the total cost before you make the exchange.

This pricing applies to exchanges in money currencies. We've explained it in more detail below.

The only time you will pay more is if you exceed your plan's exchange limit. If you exceed this limit, you will be charged a fair usage fee on the additional amount. These limits are:

- **Standard and Plus:** Exchange limit of EUR 1,000 per month. Fair usage fee of 0.5% applies to any additional exchange.
- **Premium, Metal and Ultra:** No exchange limit. No fair usage fee.

Where possible, the rate, any fee and the total cost will be shown to you in the app before you make an exchange. You'll be able to take a look, compare it against our competitors, and decide if you like the total cost or not - we think you will like it. The only exception, where it is not possible to show you the total cost in advance, is when you make a card purchase that requires an exchange to take place in real time (for example, you make a purchase in USD, but you do not have a USD balance, meaning we need to perform the conversion in real time for you). However, after the transaction, you will be able to view the breakdown of the total cost within the app.

Exchanging money currencies

Whenever you make a money currency exchange using Revolut, we use our Revolut exchange rate, add a fee (if one applies), and where possible show you the total cost. We use our own Revolut exchange rate for money currency exchanges. This rate is set by us. It is a variable exchange rate and is constantly changing. This means that the money currency buy and sell rates are determined based on data feeds from a range of independent sources, as well as the amount of the transaction. You can view the currency exchange rate on our website or in-app.

Exchange rates will be the same whether it's done as an in-app exchange, an exchange for a transfer, or an exchange for a payment.
The fee we charge (if one applies) is an exchange fee. This is a variable fee (which means it is constantly changing) depending on the parameters of your exchange (like what you are exchanging and when). You can see what this fee is in the app.
Remember, your money currency exchanges count towards your exchange fair usage limit if you are a Standard or Plus customer (but not if you're a Premium, Metal or Ultra customer).
Please see our FAQs for more information about the money currency exchange, Revolut exchange rate and exchange fee.

For example, they may do so if they allege a transaction was fraudulent or a product was counterfeit or not delivered. If the chargeback is successful, the transaction will be refunded, but you'll be charged a chargeback fee. The chargeback fee depends on the currency of the original transaction, as set out below. There is more information about disputes and chargebacks in our Payment Processing Services Agreement.
