WHEN AM I PROTECTED?

You're protected for trips, which start and end at your home, for up to 30 days.

To be protected, you must have an active Revolut Premium Plan and use this account to pay for your accommodation and the [main commercial or public transport](#) to and from your destination, unless you can prove that your Revolut card has been stolen. Your Revolut Premium Plan must remain open (without interruption) from when you book your trip and you must be able to provide receipts to prove that you used your Revolut Premium Plan to pay for your trip and accommodation.

If your Revolut card is stolen and you're unable to pay for your trip using your Revolut Premium Plan, you may be protected. We'll ask for evidence that your account has been suspended and will require a police report, dated within 48 hours of the theft of your Revolut card.

MEDICAL PROTECTION

If you require emergency medical attention, seek care at your destination. We aren't a healthcare provider, we can help you with care and assistance options after your injury or illness.

Please contact XCover Assist as soon as possible for any injury due to an accident, illness or disease which requires your admittance to hospital as an in-patient or before any arrangements are made for your repatriation. We'll only cover in-patient treatment if it's medically necessary, which means that a diagnosis can't be made or treatment can't be safely and effectively provided on an out-patient or day-care basis.

- You or someone on your behalf must contact us before any arrangements are made for your repatriation. If we did not authorise and arrange the transportation, we'll only pay up to what we would have paid if we had made the arrangements. We'll not assume any responsibility for any transport arrangements that we did not authorise or arrange.
- Please contact XCover Assist as soon as possible if you need to be admitted to a hospital as an inpatient or are in need of receiving a higher-cost treatment. We may be able to guarantee payments or arrange direct billing within the limits of your 'Emergency medical expenses' cover (subject to the acceptance by the medical provider).

We'll pay for the following medical treatment costs and related expenses incurred during your trip abroad if:

- You become ill (including with Covid-19) or suffer an injury and it becomes necessary for you to receive treatment from a medical practitioner to prevent serious harm if it's not treated before your return home, as an inpatient, daycare-patient or outpatient.
- We'll only reimburse charges that are customary and reasonable in accordance with standard and generally accepted medical procedures. If we consider a claim to be inappropriate, we reserve the right to decline your claim or reduce the amount we pay.

Your outstanding medical expenses are paid after we have sought reimbursement via alternate sources such as reciprocal health agreements (these are common in Europe but limited), private medical insurance, social security, statutory health insurance, or any other provider that may cover you.

Medical evacuation, medical repatriation and emergency flights

The XCover Assist Team will choose care options such as medical evacuation, medical repatriation and emergency flights for you or a carer or companion.

If you become ill or injured while on your trip, and you're deemed well enough to travel by your treating medical practitioner and our medical team, we'll arrange your transport to your home or home country. Your transport will be via regularly scheduled services in the same class as your original ticket unless otherwise medically necessary. We may also arrange and pay for a medical escort if it's deemed medically necessary.

Where applicable, any refund or credit of your original flight will either be deducted from any payment made to you or will be used to contribute to your emergency transport cost.

Medical transport

If you become ill or injured during your trip, we'll pay for emergency transportation from the location of the incident to a registered medical facility.

If we decide that the medical facility you're transported to is unable to offer the care you need, we'll arrange and pay for your transportation to a suitable medical facility in the country you're in or your home country. You can also choose to be medically evacuated to your home country if appropriate care is unavailable.

We may also arrange and pay for a medical escort if it's deemed medically necessary.

If you spend or are expected to spend more than 14 days in inpatient care and are medically stable, we'll also arrange and pay for your transportation to your home country.
