Exchange

Whenever you make a currency exchange in the Revolut app, we'll use an exchange rate based on our market rate, which is based on foreign-exchange market rates. There is more information about our exchange rate in our [Personal Terms](#) for more information.

For certain conversions we apply an extra percentage-based fee (a mark-up), which may change according to when and how frequently the currencies are traded. These fees are set out in the table below.

Different fees apply for high-frequency standard customers. A high-frequency standard customer is someone who:

- is a standard customer (not a premium or metal user); and
- has exchanged S\$9,000 (or the equivalent in a different currency) in any rolling month.

We charge a higher fee for currency exchanges outside London foreign exchange market hours because less currency is traded during these times. London foreign exchange market hours are all hours except midnight on Friday to midnight on Sunday in London.
