# Exchange

Whenever you make an exchange using Revolut, we use simple and transparent pricing:

- You get the real exchange rate;
- We add a small, transparent exchange fee (if one applies); and
- You see the total cost, with no hidden mark-ups or surprises.

This pricing applies to exchanges in money currencies. We've explained it in more detail below. The only time you will pay more than this is if you exceed the exchange fair usage limit for your plan. If you do, you will be charged an exchange fair usage fee on any exchange above the limit. Our Standard plan allows you to make S\$5,000 of exchange per month without an exchange fair usage fee, while Premium gives you a S\$15,000 allowance. However, after that, an exchange fair usage fee of 0.5% applies. You can avoid this completely by upgrading to a Metal plan (if you haven't already), which don't have any exchange fair usage limits. In all cases, the rate, and any fee (if one applies), will be shown to you separately in the app, along with the total cost, before you make an exchange. You'll be able to take a look, compare it against our competitors, and decide if you like the overall price or not - we think you will like it.
